
5c – Merger of PMETB with the GMC: Standards, Policies and Quality Framework - Annex E

Documents on specialty including GP training for publication by the GMC

For formal approval of revised versions by Council

Generic standards for specialty including GP training
Standards for deaneries
Standards for curricula and assessment systems

The Quality Framework for specialty including GP training in the UK

Key documents for publication through the GMC website, revised as appropriate

Operational guide for the Quality Framework (with associated Annexes)

Workplace Based Assessment (WPBA) – A guide to implementation
Reliability issues in the assessment of small cohorts
Oral assessments – a discussion document
Developing and maintaining an assessment system

Please note that the PMETB website contains many webpages and linked documents that set out information and guidance of relevance to trainees and the providers of training. Much of this material is being rebranded and updated while some important historic documents will be archived and made available on the GMC website without rebranding as GMC publications.
