| Project 4                      | GMC                                                                 | basis for the work of the Colleges and Faculties on standards and supporting information for specialists and general practitioners.  
|                               |                                                                     | • Further testing of the GMP Framework is being conducted through the England Pathfinder pilots.  
| Multi-source feedback         |                                                                     |  
| Validated MSF tools and agreed principles and criteria that must apply to any patient and colleague questionnaires used in the revalidation process |  
|                               |                                                                     | • The principles and criteria for MSF were consulted on as part of the wider revalidation consultation, which closed 4 June 2010. A preliminary consultation report will be presented to GMC Council in July 2010 and a final report in September 2010.  
|                               |                                                                     | • Research on the GMC patient and colleague questionnaires is continuing. Final report due early 2011.  
| Project 5                      | Departments of Health in England, Wales, Scotland and Northern Ireland | Pathfinder pilots in England started in March 2010. 2,300 volunteer doctors have been recruited to date, nearing the target of 3,000 doctors. The pilots will test how strengthened medical appraisal will work in practice.  
| Revised system of appraisal   |                                                                     | • Northern Ireland Primary Care Appraisal readiness review and RQIA review in secondary care are underway.  
| Deliver a revised system of appraisal for all licensed doctors with a standard module based on the Good Medical Practice framework |  
|                               |                                                                     | • New appraisal form in Scotland is being tested in Highland Pilot and other
A draft appraisal guidance handbook including an appraiser job description and person specification has been produced in Scotland. It is currently being circulated for comment. Appraisal Training Scheme Pilot is progressing with Appraiser Trainer courses scheduled for Spring 2010.

- Wales secondary care appraisal pilots in Hywel Dda Health Board and ABM University Health Board are continuing. Initial feedback on appraiser training has been positive.

**Project 6**

Responsible Officers

Creating a network of responsible officers

- Departments of Health in England, Northern Ireland, Scotland and Wales
- ROs to be in place in all four countries by October 2010.
- Responsible Officers in Wales now in post in all Health Boards and Velindre NHS Trust.
- DH(E) hopeful that regulations will be laid before Parliament in June 2010 and they have confirmed that they still expect ROs to be in place by October 2010.

**Project 7**

GMC Affiliates

The establishment of a network of GMC affiliates

- GMC
- Affiliates are being tested through two of the England Pathfinder Pilots, Yorkshire and Humberside and West Midlands pilots building on the existing Affiliates pilot work. In the West
Midlands site the pilot will look at the relationship between ROs and Affiliates.

- Academy of Medical Royal Colleges (AoMRC) and Royal Colleges

- Submissions from the 14 Colleges and Faculties on standards and supporting information for specialists and general practitioners were consulted on as part of the wider revalidation consultation, which closed 4 June 2010. A preliminary report will be presented to GMC Council in July 2010 and a final report in September 2010.

- The Academy is working with the DH(E) and the RST to integrate the specialist elements into the pathfinder pilots in England.

- Workshops with doctors in non-clinical settings have taken place throughout May and June with representative organisations.

- Work progressing on development of an end to end QA model for revalidation

- Continued Practice Board agreed on 13 May to development of generic QA self-assessment toolkit for healthcare organisations, based around agreed set of QA criteria and key indicators; and to GMC continuing to
| specialties and sectors | work with systems regulators to develop their role in QA of revalidation.  
| --- | --- |
|  | • Liaison meetings continuing with systems regulators and with Colleges / Academy on QA issues  
|  |  

**Project 10**

A process for periodic delivery of a single recommendation to the GMC

- GMC

- The GMC/Academy Group has proposed a model for the delivery of single recommendation which was consulted on as part of the wider revalidation consultation. The consultation closed 4 June 2010. A preliminary report will be presented to GMC Council in July 2010 and a final report in September 2010.

**Project 11**

A system for remediation and rehabilitation for those doctors who fall short of the required standards

- Departments of Health in England, Wales, Scotland and Northern Ireland.

- DH(E) established a Remediation Steering Group chaired by Hugo Mascie-Taylor which met for the first time in January 2010. The GMC is represented on the Group.

- Pilot work commenced with NHS Lothian in Scotland to identify a framework for remediation and rehabilitation.

- In Northern Ireland, a model of GMC liaison has been discussed with local and national GMC representatives.

- Interviews with Medical Directors and other stakeholders in Wales have been undertaken to review remediation provisions. Remediation
questionnaires have also been completed by Workforce leads and Health Board stakeholders. These are now being analysed.

Project 12

IT

Standardised electronically accessible appraisal documentation and e-portfolios

- Department of Health in England, Wales, Scotland and Northern Ireland

An IT working group has been established to develop UK-wide IT standards for systems that will support revalidation. The group held its first meeting on 30 March 2010 and it continues to meet weekly.

- Scoping work to adapt the Scottish Online Appraisal Resource (SOAR) system for secondary care appraisal has been completed. The work will now be taken forward by a suitable IT company and invitations to tender will be issued as soon as funding has been secured.

- Testing of minimum data set in Northern Ireland in primary and secondary care sectors is ongoing.
