

Specialty specific guidance on documents to be supplied in evidence for an application for entry onto the Specialist Register with a Certificate of Eligibility for Specialist Registration (CESR)

General Practice

This guidance is to help doctors who are applying for entry onto the Specialist Register with a CESR in General Practice. You will also need to read the [General Practice Curriculum documentation](#)

Can I get advice before I submit my application?

You can [contact us](#) and ask to speak to the Certification team for advice before you apply. You are strongly advised to contact the Royal College of General Practitioners (RCGP) for guidance **before** you submit an application or a reapplication.

What is the indicative period of training for a Certificate of Completion of Training (CCT) in General Practice?

The indicative period of training for a CCT in General Practice is three years and it is very unlikely that you would achieve the competencies required for a CCT in a shorter period of time.

For complete details please refer to the [General Practice Curriculum documentation](#)

Submitting your evidence

Do not submit original documents.

All your copies **must** be authenticated or **validated**, and **anonymised**. You can read an explanation of this in our [important notice about evidence](#).

You will also need to submit translations of any documents that are not in English. Please ensure the translations you submit meet our [translation requirements](#).

How much evidence to submit

This guidance on documents to supply is not exhaustive and you may have alternative evidence. We recognise that you may not have all the evidence listed here and you may wish to delay submitting an application until you are able to gather it.

Your evidence **must** cover the knowledge, skills and qualifications to demonstrate the required competencies in all areas of the [General Practice Curriculum documentation](#). If evidence is missing from one area of the curriculum for example, then the application may fail.

If you have a piece of evidence that is relevant to more than one domain, do not include multiple copies in your bundle. Instead, include one copy and list it in your evidence list under each relevant area, stating that the document is located elsewhere. (For example you might state: "document included in teaching and training section".)

Experience gained in the last 5 years is considered to be more relevant than older experience and will be given greater weighting upon evaluation of your application.

Evidence breakdown

Your application should fit inside a foolscap box file (24cmx34cmx7cm). If it does not, it is likely that you have included documentation not relevant to your application. Please do not send your application inside a box, this is just to give an indication of the size.

Types of evidence are divided into four different domains. We recommend that you apportion the evidence you provide with your application as shown in the pie chart.

Domain 1: 75%

Domain 2: 20%

Domains 3 and 4: 5%

It is important to note that you will not be able to compensate for shortfalls in your evidence of training and experience in a particular area of the curriculum by providing extra evidence in other areas.

Unsuccessful applications or poor evidence

It is our experience that applications from doctors in the specialty of General Practice are often submitted with inadequate or poor evidence in the following areas:

1. Failure to demonstrate knowledge of the full breadth and depth of the General Practice curriculum.
2. Failure to demonstrate knowledge and experience in a specific part of the General Practice curriculum, in particular, as listed below:
 - clinical governance, including audit and learning from significant events. The evidence should include a report of at least one full cycle audit in general practice, preferably using COGPED 8 criteria audit format. (Curriculum Statements 3.1 to 3.7.)
 - exposure to the full range of patients and conditions expected in UK general practice, dealing with unselected problems and coordinating care with other professionals in primary and secondary care (curriculum statement 1, 1.1 and 1.2).
 - primary care management, including caring for a registered list of patients and home visits (curriculum statement 1,1)
 - understanding the importance of holistic or person-centred care as a core value of general practice (curriculum statement 1,6)
 - long-term continuity of care as determined by the needs of the patient, referring to continuing and coordinated care management (curriculum statement 1,2.4) Managing long term conditions.
 - communication and making referrals (curriculum statement 1.3, 1.5)

This is the specialty specific guidance for General Practice

Please make sure you are reading the latest version. You can find all the guidance you need at www.gmc-uk.org.

- a practical and theoretical understanding how primary care is organised in the UK. This will include how primary care functions within the wider NHS, how to coordinate care with other professionals in primary care and with other specialists, and the impact on practitioner, patient, the wider practice team and related social services of working within different UK primary care contexts (curriculum statement 1,1.3, 1.4, 1.5).

3. Failure to submit evidence of ongoing Continuing Professional Development across the whole General Practice curriculum, including a personal, reflective diary of learning achievements as well as a list of courses and lectures, etc.

4. Failure to provide evidence of participation in department and/or management activities such as appraisal and assessment of the competences and professional attributes of others, leadership and awareness of patient safety issues.

5. Failure to provide recent relevant evidence. We consider experience gained in the last 5 years to be more relevant than older experience and it is given greater weighting when we evaluate your application.

6. The MRCGP examination contains a test of consulting skills, a test of knowledge and an assessment in the workplace. Failure to provide evidence of successful completion of similar examinations.

We strongly recommend that you closely match your experiences against the current curriculum and provide evidence of equivalence across all areas. We also strongly recommended that all your referees should be fully conversant with the current curriculum and able to provide detailed support for your competence across all or most areas.

Domain 1 - Knowledge, skills and performance

Qualifications

Primary medical qualification (PMQ)	<p>If you hold full registration with us, you do not need to submit your PMQ as we saw it when we assessed your application for registration.</p> <p>If you do not hold registration, please provide an authenticated copy of your PMQ.</p>
Specialist medical qualification(s)	<p>Please provide an authenticated copy of any specialist medical qualifications you hold.</p> <p>Please provide evidence of postgraduate examination(s) or assessments passed e.g. MRCGP, summative assessment, and postgraduate diplomas.</p> <p>For College examinations the College may confirm details of any examinations you have undertaken.</p> <p>There are no qualifications from outside Europe that enable automatic entry to the Specialist Register in any specialty. An evaluation is made based on an applicants whole career and therefore two applicants with the same qualifications but different training and/or experience may not receive the same decision.</p> <p>Please list unsuccessful attempts at examinations (where you have not subsequently been successful) in the application form.</p>

<p>Curriculum or syllabus (if undertaken outside the UK)</p>	<p>Specialist qualifications from countries with a formal GP training programme, which are comparable in breadth and depth, length and content to the UK training programme, are viewed as strong supportive evidence. However applicants must provide a copy of the curriculum and examination regulations current at the time of training. The MRCGP examination contains a test of consulting skills, a test of knowledge and an assessment in the workplace. Evidence of successful completion of similar examinations strengthens the application.</p> <p>Please provide a validated copy of your curriculum or syllabus.</p> <p>This should include the requirements of the qualification and must relate to the specialty in which you are applying. The curriculum or syllabus (including assessment methods) must be the one that was in place when you undertook your training.</p> <p>If a formal curriculum or syllabus (including assessment methods) is not available please provide a letter from the awarding body outlining the content of the training programme or examination.</p> <p>For qualifications, we will look to evaluate:</p> <ul style="list-style-type: none"> • where the curriculum covers areas of the CCT curriculum • the complexity of the work undertaken • how examinations are evaluated or quality assured (external assessment).
<p>Specialist registration outside the UK</p>	<p>The College does not hold documentation relating to specialist registration requirements of any overseas country therefore these should be submitted with the application.</p> <p>Applicants who have trained in the European Economic Area should check with the GMC as to whether they are eligible to apply for direct entry onto the Specialist Register under European Community rights.</p> <p>Please provide a validated copy of details of the registration requirements of the relevant authority.</p> <p>This will demonstrate what is expected of a registrant by that authority and how your application for registration was evaluated.</p>
<p>Honours and prizes</p>	<p>Please provide copies of certificates or letters showing what the prize or honour was for, including the selection and eligibility criteria and pool of eligible individuals.</p> <p>Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.</p>

Other relevant qualifications and certificates	<p>Please provide copies of certificates.</p> <p>For example: degrees or diplomas in relevant areas such as management, business, IT, communication, education or law.</p>
--	---

Assessments and appraisals

Appraisals and assessments	<p>Please provide validated copies of the evidence required in this area.</p> <p>For non training posts you should provide evidence of ongoing evaluation of your performance.</p> <p>This may take the format of formal appraisals by the department head or line manager (clinical director, medical director, professor).</p> <p>In the UK, a revalidation or appraisal portfolio would be appropriate (if it is completed retrospectively less weight will be given to the information provided).</p> <p>Alternative evidence may include letters (written at the time) commenting on your performance. In addition where no formal appraisal or assessment forms are available you must provide validated information on the method of career review or progression There are many different forms of assessment which form part of the various CCT curricula. Many of these tools are available for those not in training to use.</p>
RITAs, ARCPs and training assessments	<p>Formal records of assessment have been in place in the UK since 1996 (for posts of Registrar, Specialist Registrar, and Specialty Registrar). If you have undertaken training in the UK in these grades you should provide a validated copy of your formal records. In addition if you held any of these approved training posts (except locum posts), please provide evidence of your training number.</p> <p>The following is the current requirement for GP trainees following the CCT route. These CCT requirements are not a compulsory part of a CEGPR application but they will strengthen an application. If you are not able to supply these then alternative forms of assessments should be provided:</p> <ul style="list-style-type: none"> • Mini CEX (mini clinical evaluation exercises) – 15 minute snapshot of doctor patient interaction within a secondary setting. It is designed to assess the clinical skills, attitudes and behaviours essential to providing high quality care. A minimum of six mini CEX are required per year to give adequate evaluation of clinical skills • COT (consultation observation tool) – either a video recorded consultation or a consultation directly observed by the trainer are rated according to a set of criteria. A minimum of six COTs are required per year to give adequate evaluation of consultation skills

This is the specialty specific guidance for General Practice

Please make sure you are reading the latest version. You can find all the guidance you need at www.gmc-uk.org.

	<ul style="list-style-type: none"> • DOPS (direct observation of procedural skills) - are designed to assess procedural skills. There are eight mandatory procedures to be covered • CBD (case-based discussion) - gives feedback from a supervisor on a recently seen case. A minimum of six per year are desirable • MSF (multisource feedback) - is a short structured feedback form requested from at least 10 raters (multi-professional) which gives feedback on the clinical performance and professional behaviour of the GP trainee. <p>For UK experience pre - August 2007, VTR2 or RITA forms with prior GP approval for UK SHO posts and VTR1 forms for UK GP Registrar posts.</p> <p>If you have undertaken training outside the UK you must provide evidence of formal periodic assessment during your training. This evidence must have been completed at the time the training was undertaken (if it is completed retrospectively less weight will be given to the information provided). If you do not supply formal assessment documents, you must provide the curriculum to demonstrate how you were assessed. A detailed letter of verification from an educational supervisor would satisfy this requirement.</p> <p>If that training was recognised by relevant authorities outside the UK please provide evidence and recognition standards.</p> <p>If areas for development were highlighted please provide evidence to demonstrate that you have subsequently addressed them There are many different forms of assessment which form part of the CCT curriculum. Many of these tools are available for those not in training to use.</p>
360° and multi-source feedback	<p>You may wish to supply evidence of feedback from colleagues of all levels (peers, nursing, auxiliary staff, patients, management) completed at the time and may be in the format of letters, references for posts applied for etc.</p> <p>Please see above RITAs, ARCPs and training assessments section. Alternative systems used within the UK or overseas based on similar methodology will be considered and evaluated individually.</p>
Awards and discretionary points letters	<p>You must provide copies of certificates and letters.</p>
Personal development plans (PDP)	<p>For details of what to include please see NHS clinical governance support information.</p> <p>You must also provide evidence of review of your PDP at appraisal. PDPs normally form part of your annual appraisal system and you should submit them with appraisal documentation.</p>

Participation in assessment, appraisal and appointments process

You could demonstrate this in a number of ways including:

- invitations to appraisals or assessments
- minutes or other records of attendance.

These could provide evidence of:

- attendance at appraisal or assessment courses
- participation in Deanery ARCP and RITA processes
- participation in the appointments process for medical colleagues
- involvement in interview panels and interview appointment related courses
- involvement in workplace based assessments (as assessor)

All of the above **must** be **anonymised** (with respect to individual appraisee information).

Logbooks, records of daily clinical practice and portfolios

The evidence you supply here **must** demonstrate that you have achieved **all** the requirements and competencies as set down in the CCT curriculum for your specialty.

Where you have, for a substantial period of time, worked in a specialised area, you should submit evidence that at one stage in your career you achieved the requirements and competencies of the curriculum for your specialty and that have maintained these skills. You will also need to provide evidence that your current specialised practice allows you to meet all of the requirements of [Good Medical Practice](#).

Logbooks	<p>Photocopies of operating lists and theatre record books are not satisfactory evidence of procedures. If you did not complete a logbook at the time you undertook the procedures, you should create a logbook from the information you have and then have it validated. It should contain the following information:</p> <ul style="list-style-type: none">• only procedures that you were personally involved in• patient ID number but not the name• age and gender• date of the procedure• full name of the procedure• your role in the procedure (assisted, performed personally, performed under direct supervision of someone more senior, supervised a junior)• any critical incidents• name of the hospital or clinic where procedure was performed• outcomes data. <p>Applicants must include anonymised patient logs showing case mix. The age, sex and diagnosis of a sufficient number of consecutive patients are needed for us to make a judgement about relevant case mix. We do not need to see billing summaries with generic descriptors.</p> <p>It is important that these cover the full range of the curriculum demonstrating the breadth and depth of the specialty. This may mean that you have to go back further than 5 years.</p> <p>All evidence in this area must be validated and anonymised for individual patient data.</p>
----------	--

<p>Consolidation, cumulative data sheets, summary lists and annual caseload statistics</p>	<p>Applicants must include a validated annual summary of patients seen, covering the breadth and depth of the GP curriculum, will provide evidence of clinical practice.</p> <p>You should provide a summary of the total numbers for the various procedures listed in the logbook. This should be completed annually and include your role in the procedure.</p> <p>It is important that the logbooks cover the full range of the curriculum demonstrating the breadth and depth of the specialty. This may mean that you have to go back further than five years.</p> <p>All evidence in this area must be validated and anonymised for individual patient data.</p>
<p>Medical reports</p>	<p>You should provide examples across the breadth of your practice following the Academy of Medical Royal Colleges and NHS agreed format:</p> <ul style="list-style-type: none"> • A Clinician's Guide to Record Standards - Part 1 • A Clinician's Guide to Record Standards - Part 2 <p>You can use these to demonstrate:</p> <ul style="list-style-type: none"> • your involvement or role in cases • the types and complexity of cases you are involved in • your handling of patient paperwork • your respect and protection of confidential information • triangulation with logbook information. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>

Case histories

Case histories that you provide should include:

- patient ID number
- dates
- diagnosis
- nature of your involvement in the management of the case
- which curriculum competencies were involved.

You can use these to demonstrate:

- your involvement or role in cases
- the types and complexity of cases you are involved in
- your handling of patient paperwork
- your respect and protection of confidential information
- triangulation with logbook information.

All evidence in this area **must** be **validated** and **anonymised** for individual patient data.

<p>Referral letters discussing patient handling</p>	<p>Please provide a variety of copies of letters to cover all aspects of your work and to demonstrate the breadth of your practice. This may include examples of letters:</p> <ul style="list-style-type: none"> • requesting a second opinion • advising clinical colleagues or answering particular questions regarding patient management • from clinical colleagues regarding applicants involvement in patient management. <p>You can use these to demonstrate:</p> <ul style="list-style-type: none"> • your involvement or role in cases • the types and complexity of cases you are involved in • your relationship with your colleagues in other disciplines • your handling of patient paperwork • your recognition of the limits of your professional competence • your respect and protection of confidential information. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>
<p>Patient lists</p>	<p>You may wish to include copies of patient lists. You can use these to demonstrate:</p> <ul style="list-style-type: none"> • your involvement or role in cases • the types and complexity of cases you are involved in • your participation in teaching and training (where you are supervising a junior colleague) • the volume of cases you undertake • triangulation with rota, timetable and job plan information • triangulation with logbook information. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>

<p>Departmental (or trust) workload statistics and annual caseload statistics</p>	<p>You can use these to demonstrate:</p> <ul style="list-style-type: none"> • the size of the hospital in which you work • the volume of work undertaken within your trust and the percentage that you undertake • the range of work that you undertake and that is undertaken within your trust • triangulation with logbook information <p>All evidence in this area must be validated.</p>
<p>Rotas, timetables and job plans</p>	<p>Where you have undertaken a number of roles provide details for each post or role. You can use these documents to demonstrate:</p> <ul style="list-style-type: none"> • details of clinical and non-clinical duties you undertake • your on-call commitment • your participation in meetings and teaching • triangulation with logbook information. <p>All evidence in this area must be validated.</p>
<p>Courses relevant to curriculum</p>	<ul style="list-style-type: none"> • Automated External defibrillators (AED) certificate • Cardio Pulmonary Resuscitation (CPR) certificate • evidence of training/ and or course in communication skills.
<p>Portfolios (electronic or revalidation)</p>	<p>Do not submit your whole portfolio. You need to separate the evidence in it and submit that under the correct headings as set out in this guidance.</p>

Details of posts and duties (including both training and experience posts)

Employment letters and contracts of employment	<p>The information in these letters and contracts must match your CV. They will confirm the following:</p> <ul style="list-style-type: none">• dates you were in post• post title, grade, training• type of employment: permanent, fixed term, or part time (including percentage of whole time equivalent) <p>All evidence in this area must be validated.</p>
Job descriptions	<p>These must match the information in your CV. They will confirm the following:</p> <ul style="list-style-type: none">• your position within the structure of your department• your post title• your clinical and non clinical commitment• your involvement in teaching or training. <p>All evidence in this area must be validated.</p>

Job plans

Where you have undertaken a number of roles, provide details for each post or role. You can use these documents to demonstrate:

- the main duties and responsibilities of the post
- your out of hours responsibilities, including rota commitments
- that you have covered for colleagues' periods of leave
- any professional supervision and management of junior medical staff that you have undertaken
- your responsibilities for carrying out teaching, examination and accreditation duties
- your contribution to postgraduate and continuing medical education activity, locally and nationally
- any responsibilities you had that relate to a special interest
- requirements to participate in medical audit and in continuing medical education
- your involvement in research
- your managerial, including budgetary, responsibilities where appropriate
- your participation in administration and management duties.

A brief description of the way Primary Care is delivered in your own work environment to include details of how continuity of care is assured and how home visits to patients are conducted will strengthen your application.

All evidence in this area **must** be **validated**.

Research, publications and presentations

Research papers, grants, patent designs

Please include any research relevant to your current practice.

If the research is published - please submit the first page of the published paper.

If the research is not published - please provide a summary or abstract of the research.

Colleges may undertake web searches to check the information you provide.

You can use these documents to demonstrate:

- the types and complexity of cases you are involved in
- triangulation with logbook information
- working with colleagues (where research is joint or multi disciplinary)
- Continuing Professional Development (CPD).

Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.

All evidence in this area **must be validated**.

<p>Publications within specialty field</p>	<p>Include a copy of the front page of each publication.</p> <p>More weight is given where:</p> <ul style="list-style-type: none"> • the applicant is first author • the publication has a high impact factor. <p>You must not change the listing of the authors (the order in which the authors are listed) in papers where there is more than one author.</p> <p>Colleges may undertake web searches to check the information you provide.</p> <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none"> • the types and complexity of cases you are involved in • triangulation with logbook information • working with colleagues (where publications are joint or multi disciplinary) • CPD. <p>Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge:</p>
<p>Presentations, poster presentations</p>	<p>You may wish to supply invitations to present at national or international meetings to demonstrate your recognition within your specialty. You may also supply feedback from presentations or meeting agendas or programmes that show your participation.</p> <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none"> • the types and complexity of cases you are involved in • triangulation with logbook information • CPD • teaching and training. <p>Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.</p> <p>All evidence in this area must be validated by the hospital or relevant body who can attest to the event.</p>

CPD and CME

<p>CPD record certificates, certificates of attendance, workshops and at local, national and international meetings or conferences</p>	<p>You should provide a variety of these to cover all aspects of your work and to demonstrate the breadth of your practice. Where you have specialised the provision of CPD records covering the other aspects of the relevant curriculum is important to demonstrate the maintenance of your skills.</p> <p>Please provide details of the events you have attended describing the content. Support this with documentary evidence of your attendance (CPD certificates etc).</p> <p>CPD needs to be relevant to General Practice. There should be evidence submitted to show reflection on the learning gained from an educational session and how it will improve clinical practice.</p> <p>See RCGP guidelines at www.rcgp.org.uk.</p>
<p>CPD registration points from UK Medical Royal College (or equivalent body overseas)</p>	<p>Please provide evidence of registration within a formal system. Royal Colleges or Faculties may confirm attainment of their requirements.</p> <p>See RCGP guidelines at www.rcgp.org.uk.</p>
<p>Membership of professional bodies and organisations</p>	<p>List the following for your current membership of professional bodies and organisations. Provide documentary evidence showing membership information:</p> <ul style="list-style-type: none">• organisation name• date of joining• status of membership (member, associate etc)• how membership is achieved (evaluation, examination, is membership restricted or open to all?) <p>Where membership has been attained through an evaluation or examination and you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.</p> <p>See RCGP guidelines at www.rcgp.org.uk.</p> <p>All evidence in this area must be validated.</p>

Teaching and training

Teaching timetables	<p>Where you have undertaken a number of roles provide details for each post or role, indicate the level of the teaching. Where teaching is not formal (timetabled) indicate how you participate in teaching.</p> <p>Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.</p> <p>All evidence in this area must be validated.</p>
Lectures	<p>Please include evidence showing the audience and topics covered, such as posters advertising event, educational timetable from trust education centre, letter from education centre indicating your involvement in specialty trainee formal education programme.</p> <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none">• the types and complexity of cases you are involved in• triangulation with logbook information• CPD• teaching and training• communication skills. <p>Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.</p> <p>All evidence in this area must be validated.</p>

<p>Feedback or evaluation forms from those taught</p>	<p>Please provide copies of feedback from teaching events you have participated in.</p> <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none"> • the types and complexity of cases you are involved in • triangulation with logbook information • CPD • teaching and training • leadership • relationships with colleagues • communication skills. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>
<p>Letters from colleagues</p>	<p>You can use copies of letters from colleagues to demonstrate similar information to feedback forms (see above).</p> <p>All evidence in this area must be validated and anonymised for individual patient data.</p>
<p>Attendance at teaching or appraisal courses</p>	<p>A qualification in medical education e.g. postgraduate certificate, diploma or masters in education would strengthen an application.</p> <p>Please provide documentary evidence that you attended the courses and information on the content of the course including whether they were generic or aimed at medical professionals.</p>

Participation in assessment or appraisal and appointments processes

You may provide the following types of evidence to support this area:

- copies of invitations to appraisals or assessments including attendance at appraisal/assessment courses
- evidence of participation in the Deanery ARCP or RITA processes
- evidence of participation in appointments for trainees (including invitations to participate and interview panel information, including attendance at interview and appointment related courses).

You can use these documents to demonstrate:

- contribution to postgraduate and continuing medical education activity, locally and nationally
- any responsibilities which relate to a special interest
- participation in administration, management duties
- participation in teaching and training
- communication, partnership and teamwork
- relationships with colleagues (including giving feedback)
- leadership.

All evidence in this area **must** be **validated**.

Domain 2 – Safety and quality

Participation in audit, service improvement

Audits undertaken by applicant	<p>An individually devised and completed full cycle of audit that demonstrates learning from the outcomes will strengthen the application.</p> <p>You should provide evidence of the five stages of the audit process:</p> <ol style="list-style-type: none">1. Definition of criteria and standards2. Data collection3. Assessment of performance against criteria and standards4. Identification of changes (alterations to practice)5. Re-evaluation <p>Evidence you could supply includes:</p> <ul style="list-style-type: none">• audit reports (collections of data alone are not considered as a full clinical audit)• publications• submissions to ethics committee (not satisfactory alone)• presentations of audit work (see above for details required for presentations)• letter from audit or clinical governance lead confirming participation in audit or governance activities• guidelines produced to reflect lessons learned within audit• notes from self-reflective diaries. <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none">• the types and complexity of cases you are involved in• triangulation with logbook information CPD• communication, partnership and teamwork• relationships with colleagues, patients
--------------------------------	--

This is the specialty specific guidance for General Practice

Please make sure you are reading the latest version. You can find all the guidance you need at www.gmc-uk.org.

	<ul style="list-style-type: none"> • leadership • multi disciplinary working. <p>All evidence in this area must be validated.</p>
Reflective diaries	<p>For details of what to include please see NHS clinical governance support information.</p> <p>You can use this document to demonstrate</p> <ul style="list-style-type: none"> • triangulation with logbooks • relationships with colleagues • your recognition of the limits of your professional competence • handling of critical incidents or complaints • how you have changed your practice in the light of experiences (part of audit). <p>As this evidence is self produced for its content to be given weight it must be supported or triangulated by other evidence.</p>
Service Improvement and clinical governance meetings	<p>This area could be demonstrated in a number of ways including:</p> <ul style="list-style-type: none"> • invitations to attend meetings • minutes of meetings demonstrating your attendance and participation in the meeting. <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none"> • communication, partnership and teamwork • relationships with colleagues • leadership • multi disciplinary working • participation in audit or clinical governance. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>

Safety

Health and safety	<p>Please provide evidence to support awareness and following Health and Safety requirements.</p> <p>This can be demonstrated by:</p> <ul style="list-style-type: none">• declaration of health on your application form• attendance at appropriate course• involvement in infection control (membership of committees etc)• logbook information on infections• audit on infections and subsequent changes in activity.
-------------------	---

Domain 3 – Communication, partnership and teamwork

Communication

Colleagues	<p>Please provide evidence to support your communication with colleagues, both within your immediate team and the wider team (including non clinical).</p> <p>This can be demonstrated by:</p> <ul style="list-style-type: none">• letters from colleagues (examples of shared cases or “To whom it may concern letters” or testimonials)• letters of correspondence between you and your colleagues, demonstrating collaboration over management of patient care across multidisciplinary teams• management – including organising staff rotas• presentations• copies of appraisals or references written for colleagues (these must be anonymised with relation to colleague data). <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none">• communication, partnership and teamwork• relationships with colleagues• leadership• multi disciplinary working• participation in directorate and management meetings• honesty and objectivity. <p>All evidence in this area must be validated.</p>
------------	--

Patients	<p>This area could be demonstrated in a number of ways including:</p> <ul style="list-style-type: none">• a patient satisfaction questionnaire• thank you letters and cards from patients• letters from colleagues (examples of cases shared or “To whom it may concern letters” / testimonials)• complaints and responses to complaints <p>This may include complaints received against your department or a colleague where you have been involved in the resolution. This is to demonstrate how you handle complaints. Having a complaint made against you will not adversely influence your application. You must anonymise colleague information from this evidence</p> <ul style="list-style-type: none">• 360° feedback. <p>A patient satisfaction questionnaire provides stronger evidence than thank you letters and cards.</p> <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none">• communication• relationships with patients• honesty and integrity• protecting patient confidentiality. <p>All evidence in this area must be anonymised for individual patient data.</p>
----------	---

Partnership and teamwork

Working in multidisciplinary teams	<p>This area could be demonstrated in a number of ways including:</p> <ul style="list-style-type: none">• invitations to attend meetings• minutes of meetings demonstrating your attendance and participation in the meeting• job plans which indicate this as a duty• appraisals which include this information. <p>You can use these documents to demonstrate:</p> <ul style="list-style-type: none">• communication, partnership and teamwork• relationships with colleagues• leadership• multi disciplinary working. <p>All evidence in this area must be validated and anonymised for individual patient data.</p>

This is the specialty specific guidance for General Practice

Please make sure you are reading the latest version. You can find all the guidance you need at www.gmc-uk.org.

Chairing meetings and leading projects

This area could be demonstrated in a number of ways including:

- invitations to attend meetings
- minutes of meetings demonstrating your attendance and participation in the meeting
- job plans which indicate this as a duty
- appraisals which include this information
- project reports
- letters from colleagues
- publications or presentations.

You can use these documents to demonstrate:

- communication, partnership and teamwork
- relationships with colleagues
- leadership
- multi disciplinary working
- participation in directorate and management meetings
- CPD.

Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.

All evidence in this area **must** be **validated** and **anonymised** for individual patient data.

Domain 4 – Maintaining trust

Acting with honesty and integrity

Honesty and integrity	You can demonstrate this with: <ul style="list-style-type: none">• the declarations on your application form• statements from your referees• appraisal forms• having no restrictions on your registration (UK based doctors)• Certificate of Good Standing (overseas based doctors).
Equality and human rights (including disability, human rights, race, religion and ethnicity awareness and equal opportunities)	You can demonstrate this with: <ul style="list-style-type: none">• evidence of attendance at relevant courses (please provide details of course content)• feedback from patients and colleagues• statements from your referees• testimonials.
Data protection	You can demonstrate this with: <ul style="list-style-type: none">• attendance at relevant courses (please provide details of course content)• feedback from patients and colleagues• your application and evidence being appropriately anonymised.

Relationships with patients

Testimonials and letters from colleagues	<p>You may include "To whom it may concern letters".</p> <p>All evidence in this area must be anonymised for individual patient data.</p>
Thank you letters, cards from colleagues and patients	<p>Please ensure that these are anonymised (for individual patient data).</p> <p>A patient satisfaction questionnaire provides stronger evidence than thank you letters and cards.</p>
Complaints and responses to complaints	<p>This is to demonstrate how you handle complaints. Having a complaint made against you will not adversely influence your application.</p> <p>You may include complaints received against the department within which you worked or one against a colleague where you have been involved in the resolution.</p> <p>You may provide a reflective diary of how you would handle a hypothetical complaint.</p> <p>All evidence in this area must be anonymised for individual patient data.</p>
