
UK Medical Schools Annual Return 2009/10: QABME

Aberdeen

The QABME Annual Return Process

Every year, each medical school must provide a return to the GMC that:

- a. Identifies significant changes to curricula, assessments or staffing.
- b. Highlights risks or issues of concern, proposed solutions and corrective actions taken.
- c. Identifies examples of innovation and good practice.
- d. Responds to issues of interest and debate in medical education, including promoting equality and valuing diversity.
- e. Identifies progress on any requirements or recommendations arising from the QABME visit process.

In April 2009 we signalled that we would be requesting an enhanced annual return. It has been expanded to include a request for self-assessment of progress on the implementation of *Tomorrow's Doctors* 2009. This is to ensure a continuing oversight of undergraduate medical education and to begin benchmarking all schools against the revised standards. The full enhanced annual return from Schools will not be published, however we intend to publish a summary report or reports of key issues and challenges and to share practice that might be of use to other schools.

The data returns for Section A on action on requirements and recommendations from previous QABME reports are published on the GMC website.
