
UK Medical Schools Annual Return 2008/09: QABME

The QABME Annual Return Process

Every year, each medical school must provide a return to the GMC that:

- a. Identifies significant changes to curricula, assessments or staffing.
- b. Highlights risks or issues of concern, proposed solutions and corrective actions taken.
- c. Identifies examples of innovation and good practice.
- d. Responds to issues of interest and debate in medical education, including promoting equality and valuing diversity.
- e. Identifies progress on any requirements or recommendations arising from the QABME visit process.

The GMC writes to each medical school towards the end of the calendar year to request the specific information required that year. School returns allow the GMC Education Committee to identify:

- a. Issues to explore with all medical schools.
- b. Examples of good practice that can be shared.
- c. Issues to be investigated with individual medical schools.

If we need to explore an issue, for example the introduction of a new curriculum or significant changes to the curriculum or facilities, the school may be requested to submit detailed information for analysis or may be selected for the QABME visit process.

QABME Annual Return Table Templates

Tables 1 to 5 below are part of the GMC's QABME Annual Return Process. They track:

- The steps the School is taking to address specific requirements and/or recommendations arising out of the previous QABME review.
- The changes in provision of undergraduate degrees, including risks and innovations resulting from the School's own quality management systems.

What you need to do: Complete Tables 1 to 5 with brief notes. Instructions on what you need to include in each column of the tables are given below.
