GMC Regional Review: May 2015.

Dear Dr Ball

On behalf of the School I would like to thank the GMC visiting team formally for what was a very positive experience. As you are aware, in addition to the GMC regional visit in May 2015, we also underwent a periodic review led by the two parent universities in the same month. Both forms of external scrutiny have proved to be a helpful catalyst for a programme of change as the BM BS course develops and we can build on existing provision.

We have attached our action plan which specifically addresses the identified areas of good practice as well as the requirements and recommendations from the visit. We have complied a similar action plan which has been submitted to our parent universities.

We are particularly pleased that the *Time for Dementia* initiative has been selected as an example of good practice and we will be pleased to discuss this at the GMC Quality Leads meeting in November.

Once again thank you to all of the GMC visiting team, we are most grateful for your guidance and support throughout.

Yours sincerely

Prof Malcolm Reed
