

Collection of Medical Royal College and Faculty exam outcomes in 2021/22 – Briefing note 1

Introduction

The GMC undertakes an annual project to report on the exam outcomes which could contribute to the award of a CCT or CESR to doctors at the end of their training or allows progression to the next stage of training. This also includes exams that are required to progress through foundation training.

- The reporting period that this briefing note covers includes the outcomes from exams taken between **1st August 2021** and **31st July 2022**.
- Royal colleges, faculties and any other organisation administering an exam that is required for a CCT will be referred to as 'colleges' throughout this note.
- This year the exam data collection continued to be impacted by the cancellation, postponement and derogations made to exams due to COVID-19. It is therefore important that we gather information on which exams have been affected by the disruption. Please ensure you complete the list of returned exams and the exam data checklist to inform us of the changes to the exams which will be returned.

Changes to the collection for 2022

- Recording of exams that have significantly changed in format compared to previous years [\[jump to section\]](#)
- Expanded details on Reasonable Adjustment data [\[jump to section\]](#)
- Inclusion of nullified exam data due to COVID [\[jump to section\]](#)
- Publishing CR_Exam details [\[jump to section\]](#)

Exam data collection 2021/22 project timelines

Deadline date	Who	Action
20 August 2022	Colleges	<p>Confirm names and contact details of individuals who will be sharing data with the GMC, as well as those who will be reviewing the data in the stakeholder review.</p> <p>Our Information Governance policies require access to GMC Connect, our secure file-sharing system, to be withdrawn for those who do not confirm they require access in 2022.</p> <p>Nominated contacts will receive all the relevant communications.</p>

Deadline date	Who	Action
2nd September 2022	Colleges	<p>Colleges to submit the list of returned exams file sent with this note, and the exam checklist to the GMC.</p> <ul style="list-style-type: none"> See the exam data checklist in Appendix A for what to check Answer questions regarding new data fields Confirm whether there are any exams which will not have data submitted in 2022 including any sittings that were cancelled as a result of COVID-19 and any derogations made to exams in the reporting period. <p>If your college has an entirely new exam format in response to COVID-19, please see here for how to record these.</p> <p>Details of exam cancellations and derogations will be published on our website.</p>
9th September 2022	Colleges	Deadline for submitting candidate demographic data via GMC Connect.
7th October 2022	GMC	Return output files (Appendix B) to colleges identifying which candidates are or have been on the UK medical register, and for whom colleges should provide exam results.
4th November 2022	Colleges	Deadline for submission of exam outcomes for all candidates who are or have been registered with the GMC.
November 2022	GMC	<p>Initial checks of exam data include:</p> <ul style="list-style-type: none"> A check against the list of returned exams file to ensure that each exam listed has results returned Number of exam results expected based on previous year's returns and candidate demographic data submission Missing data from the data sharing agreement or gaps in the data <p>Feedback will be given to colleges if any issues are identified.</p>

Deadline date	Who	Action
Early December 2022	Colleges	Colleges to respond to any queries from the initial checks within two weeks of GMC feedback.
Q1 2023	GMC	Stakeholder review of data. Further detail on this will be available in the next briefing note.
Q1 2023 (2 weeks after receiving data)	Colleges	Stakeholder return of reviewed data. Further detail on this will be available in the next briefing note.
2023	GMC	Stakeholder opportunity to view specialty exam reports built from the data. Further detail on this will be available in the next briefing note.
2023	GMC	Exam 2021/22 data included in UKMED database. Access for research projects is via an application to UKMED.

Exam data collection: what data should be returned?

Colleges provide the GMC with exam outcomes for all doctors who are currently or ever on the UK medical register and who sat an exam which could contribute towards their CCT or CESR within the reporting period **1st August 2021 to 31st July 2022**.

Data sharing agreements

Data sharing agreements (DSAs) were produced and signed by colleges and the GMC to agree and list the data fields shared by the two parties for the candidate demographic data and outcomes for each exam. You should have a copy of the DSA; if you do not, please email educationdata@gmc-uk.org and we will share the most up to date version. Below is an example of the data fields listed for each exam in the DSAs:

Fields Shared with the GMC for exam name
Candidate ID
GMC reference no
Candidate first name
Candidate surname
Date of birth
Exam date
Attempt
Score
Pass mark
Pass/fail

Please check the DSA to make sure it reflects the exams and data fields you can share with us. Please let us know if the DSA needs to be amended.

We will be in contact with colleges that are able to return data on reasonable adjustments to ensure the additional fields are included - please see the [reasonable adjustment data](#) section below.

If your systems have been updated and it is now possible for you to provide total scores or sections scores, we would be very interested in amending your DSA.

Candidate demographic data return

To check whether the candidates who sat the exams are or were ever on the UK medical register, colleges are first asked to share demographic data about the candidates with the GMC. You can submit files in Excel or csv format. All files should be submitted using the secure portal in GMC Connect. Unfortunately, we cannot accept Word or PDF files.

Candidate demographic data files can be submitted to the GMC as soon as exam diets are finished, and you have a complete data set available.

To ensure we can accurately match the candidate data with the UK medical register, you must include *at least*:

- Candidate first name
- Candidate last name
- Candidate date of birth
- GMC reference number (if available)
- College ID (a unique ID provided by the college to each candidate if available)

If you hold it, 'Medical School attended' is an additional field helpful for matching purposes.

The most accurate way to submit the candidate demographic data is to extract the exam data then remove the exam results from the file. These data can then be sent to us to match against the UK medical register (<https://www.gmc-uk.org/registration-and-licensing/the-medical-register>).

We encourage colleges to submit unique IDs used for candidates as this allows us to do an additional data validation check to ensure that each unique college reference number only matches to one GMC number. Please refer to the DSA for a list of demographic data fields your college has agreed to provide.

Within four weeks of submitting the candidate demographic data, the GMC will return an output file to you which will identify candidates who are or were on the UK medical register and for whom their exam results should be shared with the GMC. You will find more information about the data which is returned in the output file in [Appendix B](#). There

is also a brief explanation of the matching process that the GMC uses to identify those on the UK medical register in [Appendix C](#).

Please note: It is important to complete the candidate data check before you submit your exam data so that the GMC does not hold exam results for people who are not or have never been on the UK medical register. To ensure that the demographic data for people who are not and have never been on the UK medical register are not held by the GMC, candidate data are removed from GMC Connect and deleted from local folders. The unmatched cases are deleted from the tables in the Oracle database.

Exam outcomes data return

The final return of data to the GMC includes the exam outcomes for all candidates who are or were ever on the UK medical register, i.e. the matched cases as indicated in the output file, for any exams sat during the reporting period which could contribute towards the CCT or CESR. This may include exams which do not directly contribute towards the CCT, but if passed, exempt the doctor from passing an exam which is required for their CCT.

If you are unsure whether an exam contributes towards the CCT or CESR you will find assessment information in the curricula documents on the [GMC website](#).

A list of all exams that are currently shared with the GMC as part of the exam data collection can be found in the list of returned exams file which is attached to the email along with this briefing note. You will find more information about what is included in the list of returned exams file in [Appendix D](#).

For each exam, the DSA lists all the data fields that your college agreed to return to the GMC. The DSA was tailored for some colleges that were unable to provide the level of detail originally requested, such as examination scores. The GMC is keen to collect the following data fields for each exam in order to increase the utility of the data for UKMED research projects:

- Scores (section and/or total scores)
- Pass mark/score
- Attempts

If you don't currently return these data fields, please [email us](#) and we can discuss adding these data to the return and updating the DSA.

Once the exam outcomes are returned the GMC will use the information that you have provided in the DSA, the list of returned exams file and any information you have returned from the exam data checklist, to check the data and ensure data quality. You can find out more about what those checks include in [Appendix E](#).

Changes to exam format

We recognise that, due to COVID-19, there will have again been some changes to the method of delivering some exams during this collection window. In some instances, these methods will have changed significantly enough for an exam to be considered a new entity in terms of reporting - when compared with the previous version of the exam. Where this is the case, we would ask that you create a new line in the *list of returned exams* document for this exam and give it a new, identifiable name.

Example: The Royal College of General Practitioners have replaced their Clinical Skills Assessment with a Recorded Consultation Assessment as a result of the disruption caused by Covid-19 so this would be considered a new entity for reporting purposes.

If your college has published information about the new format of exam please include these links in your *list of returned exams* (see, for example: <https://www.rcgp.org.uk/gp-training-and-exams/mrcgp-exam/mrcgp-clinical-skills-assessment-csa.aspx>)

Reasonable adjustment data

In 2020 we conducted a consultation with colleges on the collection of additional data regarding reasonable adjustments made for candidates. Where you have agreed to send this to us, it will now be reflected in your colleges Data Sharing Agreement.

The data on reasonable adjustments should be provided after the initial candidate demographic data matching has been completed, along with exam results for the candidates that have matched to the GMC register.

For any colleges who have not completed this consultation but are able to share these data with us, please let us know at educationdata@gmc-uk.org. We are encouraging those that have not yet agreed to return this data to see if it is in their capacity to do so as it is an area that is gaining increasing attention.

In particular UKMED has recently published in this area please see:

Murphy MJ, Dowell JS, Smith DT

Factors associated with declaration of disability in medical students and junior doctors, and the association of declared disability with academic performance: observational study using data from the UK Medical Education Database, 2002–2018 (UKMED54)

BMJ Open 2022;**12**:e059179. doi: 10.1136/bmjopen-2021-059179

<https://bmjopen.bmj.com/content/12/4/e059179.full>

The reasonable adjustment data has the potential to be a key part of the GMC's EDI Action Plan as it may pinpoint underlying inequalities which lead to the attainment gap in exams. By sharing these data colleges would be supporting PG Deans to better support trainees to access support they need. In some Deaneries they are running a pilot to identify overseas doctors who have not been screened for conditions such as Dyslexia early in their careers, and to offer this when they join training, to ensure they receive appropriate support throughout. Analysis by ethnicity and other demographic groups will

help to identify other groups who may be at increased risk of not accessing support that they may be entitled to and ensuring this is addressed.

Please see below a percentage break down of doctors for whom we have a record of whether they had an adjustment or not for 2019/20 and 2020/21 sittings, split by reporting year which shows the need for us to get more colleges on board with sending us this information as part of the Data Collection:

2020

Reported Status	%	n
Not reported	82.67%	32176
Reported	17.33%	6743
Grand Total	100.00%	38919

2021

Reported Status	%	n
Not reported	82.00%	51285
Reported	18.00%	11258
Grand Total	100.00%	62543

The aggregated findings across the past two years for those whom we hold the data for highlight a variation in the % of reasonable adjustments. At present, the data we hold is very limited but this brief analysis is evidence of the growing need for us to be able to report on this fully.

Reasonable adjustments (Y/N)

	N		Y	
Ethnicity	%	n	%	n
Ethnic minority	97.91%	6637	2.09%	142
White	94.37%	8916	5.63%	532
Not known	93.22%	607	6.78%	44
Grand Total	95.75%	16160	4.25%	718

Duplicate pass results

During recent analysis using historic exam data collected from colleges, it was noted that there are instances where colleges have provided us with data where a candidate has passed the same exam more than once. In many instances this was across years - for example, a pass in 2018 and another in 2019 for the same exam.

Please ensure when submitting your exam results that the overall pass/fail for the exam is provided and is correct. A new check has been included internally to look for duplicate results across years. We will raise any duplicates with colleges and resolve them before the data is finalised for reporting.

Nullified results

In last year's returns some exam attempts were voided, due to the impact of COVID-19. In those instances, we asked the colleges to still return the record containing their scores and pass marks; however, their attempt number and their Pass/Fail Result were marked as result voided. For 2022, where this is still the case, we need these results to be returned in this manner. This enables us to maintain data consistency without it affecting the end reports. Within the data the EXAM_PASSFAIL column in EXAM_TOTAL_MARKS will allow a new value "Nullified".

Publishing CR_Exam Details

When Exam Data is used by researchers, an important part of how they are able to use it comes down to the information given in the list of returned exams, this allows them to interpret the information they are seeing based on how it was submitted to us. This year to allow them to see this information easier we aim to publish it on the GMC website rather than them having to be sent it one by one when they ask for it. For this reason we

ask that extra care is paid to the information provided to us in the List of Returned Exams, especially regarding information around changes to exams and nullified returns.

Exam data collection: step by step guide to returning the data

Below are the guidelines for returning the candidate demographic data and the exam outcomes data. Please [email us](#) if you have any queries about the process.

- 1** Email the GMC confirming the college contacts who will be returning the candidate demographic data and the exam outcomes data by the **19th August 2022**. The GMC will check that these contacts have access to GMC Connect – the secure portal through which all data are to be returned.
- 2** Use the [exam data checklist](#) to go through the DSA and list of returned exams file and amend as appropriate. If you need a copy of the DSA or you have not received the list of returned exams file, please [email the GMC](#).
- 3** Return the list of returned exams file and respond to the questions in the exam checklist via [email to the GMC](#) by **2nd September 2022**.
- 4** Log in to [GMC Connect](#). In the Royal college/faculty – education stakeholder group you will have access to a document folder for your college called, 'Exam data collection 2022 – College name' where you will be able to upload the candidate demographic data. Please return the candidate demographic data by **9th September 2022**.
- 5** You will receive an email from the GMC when an output file is ready for you to download from your college document folder in GMC Connect.
- 6** Use the output file to prepare the exam outcomes data return with reasonable adjustment data included where agreed for the candidates who are/were on the UK medical register.
- 7** Upload the exam outcomes data return to your college document folder in GMC Connect by **4th November 2022**.
- 8** Should the GMC raise any issues with you following the initial checks of the exam outcomes data, please feedback to the GMC within two weeks of the query being raised.

Exam data: what are the data used for?

Progression reports: Specialty Exam

The data provided are used to produce the specialty exam report, which forms part of the [progression reports](#). The purpose of these reports is to help medical schools and postgraduate training bodies to better understand the journey of doctors through training. The specialty exam report highlights the variation in pass rates for different cohorts of doctors through various visuals developed in Tableau. The report is split into postgraduate and undergraduate visuals, the latest of which can be viewed by visiting these areas within the progression reports via the link above.

Following completion of the data collection, this report is refreshed for publication. Each year we aim to improve the report through developments to the data and visuals. If you have any suggestions on improvements or different visualisations you would like to see, please get in touch using the contact details below.

UK Medical Education Database

The UK Medical Education Database (UKMED) brings together different undergraduate and postgraduate data relating to UK medical education. It provides a platform for collating data on the performance of UK medical students and trainee doctors across their education and future career. UKMED aims to highlight the paths of doctors through school, university and their career and create a unique environment in which new research can be undertaken. Data extracts are made available to researchers via a formal application process which is described on the [UKMED website](#).

All colleges have a signed Data Sharing Agreement with the GMC that permit the inclusion of their exam data in UKMED. At the Academy Assessment Committee in June 2017 each college was asked to nominate a contact to consider UKMED research projects using their data and indicate their preferred level of involvement in such projects. Colleges interested in applying for a UKMED Research extract should note that the next application window is 26th September 2022 to 14th October 2022.

Contact the GMC

If you have any queries in relation to the data collection process of the exam outcomes please contact the GMC by email at educationdata@gmc-uk.org.

Your contacts at the GMC regarding the exam data collection are:

Haydn Dalton
Education Data Officer

Jennifer Redman-Tootell

Education Data Officer

Kimberley Ashworth
Survey Analyst

All briefing notes from previous collections and this briefing note will be published on the [GMC website](#).

Appendix A – Exam Data Checklist

This checklist asks you questions which guide you through reviewing and updating the list of returned exams file and describing some of the data fields returned so that we can check the completeness of the data.

1. Were there any exams, not listed on the list of returned exams, which were sat during the reporting period and contribute towards a doctor's CCT?

If yes, please add the details of the exam to the list of returned exams.

2. Are there any exams listed on the list of returned exams which are no longer being sat at the college/faculty?

If yes, please make a note in an email to the GMC about which exam this is and any new exam which replaces it. Please provide the relevant dates: last date of old exam and first date of new exam.

3. Are there any exams listed in the list of returned exams which were not sat during the reporting period?

If yes, please let the GMC know which exams will not be returned. Please also include in the list of returned exams file, details of any exam sittings that were cancelled as a result of COVID-19 and the dates these exams were intended to take place.

4. **Are there any changes to any of the details of the exams?**

If yes, please update the list of returned exams with the details of the changes or include in the email to the GMC.

For example, if the mode of delivery has changed and the exam has been delivered online instead of a physical centre please record this here.

If it is NOT possible to derive how the exam was delivered using the date and name of exam which are already contained in the data, is it possible to record the method of delivery against each candidate attempt.

If it is only possible to capture method of delivery reliably at individual level please include this in your exam outcomes data return

We would expect exams to have been sat in one or more of the following ways:

- proctored online,
- pen & paper at physical exam centre,
- online physical exam centres,
- hybrid.

When returning this information, please use these codes where possible. If in doubt as to how best to describe the delivery please contact us at educationdata@gmc-uk.org

5. **If the data includes station scores, are these stations consistent with previous sittings?** Please can you make sure that these are labelled with the name of the station rather than the number of the station.

6. **Are there any changes to the data that we need be aware of?**

Please describe your data fields, if applicable, and email your responses to educationdata@gmc-uk.org

1. Exam date	Is this the date the exam was sat or the date the results were published?	Please delete an option: Date the exam was sat OR Date the results were published
2. Attempts	Is the attempt number the number of attempts including the attempt recorded on that row of the spreadsheet or the number of attempts by the candidate up to the attempt recorded on that row of the spreadsheet? i.e. if it was the candidate's second time sitting the exam would the attempt number be 2 or 1.	Please delete an option: Attempt is number of attempts including that recorded OR Attempt is number of attempts up to that recorded
3. College ID	Is the code given to a candidate unique to the candidate or to the exam result? If the college ID is unique to a candidate, we will check the integrity of the data by checking that each college ID is only associated with one GMC number. If you have a college ID that is unique and don't currently include it in your data return, please do so this year.	Please delete an option: College ID is unique OR College ID is not unique

Describing your candidate data informs the checks we will do on your exam data.
<p>1. Will your candidate demographic data be provided by candidate or by attempt?</p> <p>If your data is by exam attempt, we will expect duplicate rows for the same candidates where they have sat different exams and/or had multiple sittings. If it is by candidate, we will expect unique rows for each candidate regardless how many exams/ sittings they have had. If you are providing candidate level data, please email educationdata@gmc-uk.org to tell us how many records you intend to return exam data for.</p>
<p>2. Are there any data fields you included in the candidate demographic data which should be added to your output file?</p>

Please tell us which, if any of the fields you submit in your candidate demographic data help you to submit the exam data and should be added to the output file returned to you after the candidate matching, e.g. exam date, college ID, attempts etc.

Appendix B – Table of fields included in the output file

Excel column	Column name	Description of data included
A	EXAM_MATCH_ID	Added by the GMC this number is unique to each record
B	COLLEGE ID	<p>This will be the ID you use against the record; in some cases it is a person ID in other cases it is an attempt ID.</p> <p>If you supply us with a college ID which is unique to a candidate in the demographic data, this will be in this column. We will use this to ensure that only one GMC reference number is provided against each unique college ID</p>
C	EXAM_NAME	If provided in the candidate demographic data the exam name will be included in this column
D	COLLEGE	Abbreviation of the college name
E	GMC_PROVIDED	GMC reference number as provided in the candidate demographic data by the college
F	GMC_ASSIGNED	The GMC reference number which is assigned to the candidate from the match test
G	COLLEGE_FIRST_NAME	First name of the candidate as provided in the candidate demographic data by the college

H	COLLEGE_LAST_NAME	Last name of the candidate as provided in the candidate demographic data by the college
I	COLLEGE_DOB	Date of birth of the candidate as provided in the candidate demographic data by the college
J	LRMP_FIRST_NAME	First name of the candidate as it appears on the List of Recognised Medical Practitioners (LRMP)
K	LRMP_LAST_NAME	Last name of the candidate as it appears on the LRMP
L	LRMP_DOB	Date of birth of the candidate as it appears on the LRMP
M	PRIMARY_PMQ_WORLD_REGION	The region in which the candidate took their primary medical qualification (PMQ) Possible values include EEA, IMG, UK
N	LRMP_MEDSCHOOL	The medical school from which the candidate was awarded their (PMQ) as it appears on the LRMP
O	LRMP_DATEOFPMQ	Date that the candidate was awarded their PMQ
P	GMC_VALID	Identifies whether a candidate is/was on the UK medical register. Possible values include: <ul style="list-style-type: none"> ▪ 1 = on or have been on the register ▪ 0 = not on the register
Q	MATCH_TEST	There are several match tests applied to the data to check against the UK medical register. This column will tell you which match test resulted in a

		<p>valid GMC reference number for this record. Possible values currently include:</p> <ul style="list-style-type: none"> 1 - GMC_Validation - matching both names and DOB 2 - GMC_Validation - matching last name and DOB 3 - GMC_Validation - matching previous last name and DOB 4 - GMC_Validation - matching lastname OR DOB 7 - Reverse find on both names and DOB (hard matched) 8 - Reverse find on last name and DOB (hard matched) 9 - Reverse find on both names switched and DOB (hard matched) 12 - Reverse find on both names transposed DOB DAY AND MONTH 13 - Reverse find on lastname and transposed DOB DAY AND MONTH 14 - Reverse find on previous last name and DOB (hard matched) 15 - Reverse find on both names distance >70 * and DOB (hard matched)
R	GMC_NUMBER_NOT_MATCH	<p>Flag to indicate whether the GMC_PROVIDED = GMC_ASSIGNED.</p> <p>1 = GMC number provided does not match number obtained via matching process</p> <p>Blanks = GMC numbers match</p>
S	SURVEY_YEAR	Year that the candidate completed the national training survey (NTS).
T	ORG_NAME	Deanery/LETB/Local office the candidate was training under in the March 2022 census

U	PROGRAMME_SPECIALTY	The training programme specialty a candidate was returned under in the March 2022 census.
V	TRAINING_LEVEL	The level that the candidate was training at as per the March 2022 census.
W	MANUAL_REVIEW	Outcome of a review done by the GMC on candidates which have 1 in GMC_valid but were matched on a test which could result in a false match (tests 9 and above are manually reviewed)
X	COMMENT	Any comments made about the records during manual review
Y	FINAL_CORRECT_GMC_NUMBER	The GMC reference number which is correct and final
Z	Provide exam data?	Indicates if a candidate has a 1 in GMC_Valid, please provide the exam data. Possible values: <ul style="list-style-type: none"> ▪ Yes (provide exam data) ▪ No (do not provide exam data)

Appendix C – Exam data collection: how are the candidate data matched to the medical register?

Using the demographic data that you provide we will match candidates to our list of registered medical practitioners, known as 'the medical register'.

Where it has been provided, we will check if the GMC reference number is valid by matching candidates to the medical register using the GMC reference number and date of birth and last name to confirm if it is the correct number for the candidate.

For candidates with no GMC reference number or one we cannot validate as above, we will attempt to match them to the medical register using a combination of date of birth, first name and last name.

If available we can use medical school as an additional check on matches, we use this for other datasets such as ORIEL recruitment data.

We will return the results of the matching exercise in an output file within four weeks of receiving your candidate demographic data. Please refer to [Appendix B](#) for a list and description of the data fields included in the output file.

Appendix D – Table of fields included in the list of returned exams

If these are all correct please confirm; if not please amend in the file as required. Please note this information is shared with UKMED researchers to aid their understanding of the data.

If the exam has change substantially we recommend it is given a separate entry in this table with a new name, such as PACES – Hybrid

Excel column	Column name	Description of data included	What to check
A	CollegeName	Abbreviation of the college name	Please check this is correct for your college
B	CollegeNameLabel	Full college name	Please check this is correct for your college
C	AbbreviatedExamName	Abbreviation of the exam name	Are there any exams missing? Please add a new row for any exam missing
D	ExamName	Full exam name	Are there any exams missing? Please add a new row for any exam missing
E	DataYear	The first year that data from this exam was provided to the GMC	Please check the year is correct for this exam
F	ExamCloseDate	If an exam is no longer running at the college this will be the last year the data was returned to the GMC for this exam	Please fill this in if an exam will not be returned and is no longer running
G	ExamType	The format of the exam e.g. Multiple choice or Single Best Answer etc.	Please check this is correct and update if changed. If changed due to a derogation from the curricula please email us to let us

			know so we can discuss with you any potential impact on reporting the data
H	LevelTaken	The level of training that the exam is sat at	Please check this is correct and update if changed
I	Eligibility	Eligibility criteria for taking this exam	Please check this is correct and update if changed
J	RequiredForProgressionTo	The level of training that the exam provides progression to	Please check this is correct and update if changed
K	SourceURL	The web page which has the exam information on	Please check this is correct and update if changed
L	SectionScoreAvailable	If section scores are available please put a Y in this box or a N if there are no section scores for this exam	Please check this is correct and update if changed
M	TotalScoreAvailable	If a total score is available please put a Y in this box or a N if there are no section scores for this exam	Please check this is correct and update if changed
N	TypeOfTotalScore	Whether the total score is a percentage (Percent) or a raw score (Total score)	Please check this is correct and update if changed
O	PassMarkAvailable	If a pass mark is available please put a Y in this box or a N if this is not available	Please check this is correct and update if changed

P	Exam sat within reporting period (yes/no)	If exam was sat within the reporting period 1 August 2020 and 31 July 2021 please put Yes. If exam was not sat due to COVID cancellation put No	Please check this is correct and/or update
Q	COVID specific changes to exam	Information on whether exams were cancelled, delayed, or changed due to COVID	Please check this is correct and/or update
R	Impact on trainee progression	Information on whether the progression of the trainee has been impacted due to COVID specific changes to exam and/or requirements to pass exam to progress have changed	Please check this is correct and/or update
S	Contact	Where information is populated in columns P-R, this is the contact who provided the information	This column is for reference only
T	Notes	This is a section for you to add any notes about the exam or future of the exam	Please add a comment if required, this may include any additional information other than COVID specific change.
U	Method of delivery	If the method of delivery changed due to COVID, please record here whether this was done for all candidates in a given diet or whether it can only be reliably captured at the level of individual candidate. If it can only be captured at the level of individual candidate, it will need to be included in the exam outcomes data.	Please add any information around changes in method of delivery.

V	Contains Nullified Data	If an Exam has had any of its attempts nullified due to COVID, put a X in this box so that we know to be aware of these when it comes to reports.	New information required for 2022
----------	-------------------------	---	-----------------------------------

Appendix E – Table of fields included in the CR_Exam research file

Excel column	Column name	Description of data included
A	CollegeName	Abbreviation of college name e.g. RCOEM
B	CollegeNameLabel	Full college name e.g. Faculty of Public Health
C	AbbreviatedExamName	Abbreviation of the exam name
D	ExamName	Exam name in full as provided by the college
E	DataYearIntroduced	The year we started receiving the data
F	ExamCloseDate	The year the exam ended or was renamed
G	ExamType	What kind of exam it is e.g. Multiple Choice Questions
H	LevelTaken	The level of training that the exam is sat at

I	Eligibility	Eligibility criteria for taking this exam
J	RequiredForProgressionTo	The level of training that the exam provides progression to
K	SourceURL	The web page which has the exam information on
L	SectionScoreAvailable	If section scores are available
M	TotalScoreAvailable	If a total score is available
N	TypeOfTotalScore	Whether the total score is a percentage (Percent) or a raw score (Total score)
O	PassMarkAvailable	If a pass mark is available
P	ExamTable	GMC database table name
Q	CollegeIDprovided	How the College ID is presented to us
R	AttemptsProvided?	How the candidates attempt information is provided to us
S	EligibilityToPass	If we have been advised there is an alternative way to receive a pass on the Exam
T	CandidateLevelOrAttemptLevelDataProvidedForMatching	Taken from AttemptsProvided? For matching purposes

U	Notes	Any caveats or information for the particular exam
V	2019/2020Cancellations	If the Exam was cancelled during this collection window due to COVID
W	2020/2021NullifiedExams	If the Exam had some candidates with nullified attempts due to COVID

Appendix F – Exam data collection: what are the data quality checks?

To help improve the data quality we will complete some checks when you return your candidate demographic data and exam data to us. If we think there are any issues with the data you submit we will email you and ask you to check the data or provide clarification. Checks will include:

- Number of records returned - this will be compared to the number of candidates submitted in last year's data return for any large discrepancies
- Matched candidates have exam outcomes – we will check that all candidates submitted in the demographic data and matched to a GMC number (i.e. GMC_VALID =1) have one or more records in the exam data and if there are any candidates in the exam data not in the output file
- Missing exams – unless you let us know that data will not be supplied for an exam, we will check that data are returned for every exam listed in the list of returned exams and the DSA
- Blanks within columns – we will check for any blank cells in columns where data are expected
- Duplicate records – we will check for exact duplicate results for exams i.e. a record for the same candidate that has an identical exam date, exam name and result
- Missing data fields – we use the DSA to check if there are any data fields listed in the DSA which have not been returned
- Duplicate pass marks – we will check that there are no passes for candidates where we have previously recorded a pass for the same exam in another data collection year. This is an additional check introduced for the 2019/20 collection.

Please note: Some data fields are more important to the UKMED and progression reports projects and these will be the only fields chased up with colleges unless we are made aware that they are not available:

Candidate data
Candidate first name
Candidate last name
Candidate date of birth

Exam data
Exam date
Attempts
Section/total scores

GMC reference number

Pass marks
Pass/fail
