Robin Benstead
Education QA Project Manager
General Medical Council

Sent by email

Dear Mr Benstead

Review of Hull York Medical School in 2014/15

On behalf of the School I would like to thank the GMC visiting team formally for what was a very positive experience. As you are aware, in addition to the GMC regional visit in 2014-15, we also underwent a University led periodic review in 2014; both forms of external scrutiny have proved to be a helpful catalyst for our extensive programme of change as the School continues to develop, enhance and build on the many different aspects of our provision.

We have attached our action plan which specifically addresses the identified area of good practice as well as the requirements and recommendations from the visit. We have arranged to contribute to the Review of Medical School Partnership which is being led by Professor Tony Weetman at Sheffield and understand that he intends to submit his final report to the LETB by the end of March 2015.

Once again thank you to all of the GMC visiting team, we are most grateful for your guidance and support throughout.

Yours sincerely

Trevor Sheldon
