Dear Abigail

15<sup>th</sup> April 2016

**Re: GMC Regional Visit to HEEoE 2015**

Thank you for the GMC's reports consequent to the GMC Regional Visit to HEEoE during Autumn 2015. We should like to thank the GMC for the enabling manner in which this visit was conducted and for the opportunity to further improve the quality of undergraduate and postgraduate medical education and training to the benefit of our patients and trainees.

Our formal response to the good practices, requirements and recommendations identified at the visits to the LETB and the LEPs is contained in our attached overarching action plan.

HEEoE looks forward to continuing to work with its colleagues in our medical schools and LEPs to further disseminate the many areas of good practice identified and to continue to improve the quality of the delivery of education and training in our region.

Please do not hesitate to contact me should you have any queries.

Yours Sincerely,

**Professor Bill Irish**  
Postgraduate Dean (GMC 3132872)
