**This case will be considered by the Investigation Committee applying the [General Medical Council's Fitness to Practise Rules 2004](#)**

The Investigation Committee will consider whether it is appropriate to issue Dr Hendrick Van Griethuijsen with a warning in light of the allegation that on 17 December 2018, he was convicted of driving a motor vehicle with excess alcohol. It is alleged further that Dr Van Griethuijsen failed to notify the GMC, without delay, when charged with the offence.

Dr Van Griethuijsen has determined not to accept the warning as proposed by the Case Examiners, therefore exercising his right to an oral hearing before the Investigation Committee.
