This case will be considered by the Investigation Committee applying the [General Medical Council's Fitness to Practise Rules 2004](#)

The Investigation Committee will consider whether it is appropriate to issue Dr Trivedi with a warning in light of the allegation that following the death of Patient A she failed to comply with requests from HM Coroner's Office in relation to the Inquest.

It is alleged that despite a number of attempts by HM Coroner's Office to obtain a witness statement and/or oral evidence from Dr Trivedi, including issuing her with a witness summons and arranging for her to give evidence by teleconference, she failed to comply.

It is further alleged that Dr Trivedi was evasive and/or rude to staff at HM Coroner's Office.

Dr Trivedi has determined not to accept the warning as proposed by the Case Examiners, therefore exercising her right to an oral hearing before the Investigation Committee.
