Dear Colleague

**Response to the report**

We would like to thank the review team for their constructive and supportive approach to the South West London Regional Review of Medicine at St George's, University of London.

We welcome the report, and are pleased to note the examples of good practice and other positive comments within the report. We accept the requirements and recommendations and attach our action plan.

We will work with our regional partners to continue to improve the quality of education we provide to our medical students.

Yours sincerely

**Professor Peter Kopelman**  
Principal
