18 March 2015

Dear Ms Hiscocks

The University of Buckingham would like to thank the GMC team for engaging constructively with the Medical School at this critical stage of our development. We are pleased that the team acknowledges that we have addressed satisfactorily many of the issues raised by the last report in the very short time before this new cycle of visiting began, and we will continue to work to address all issues raised by the team in this latest report.

We have always aimed to put in place policies, structures and procedures that will enable us to demonstrate, as the course develops, comprehensive compliance with the standards required by the GMC, and we look forward to continuing constructive dialogue with the team to ensure both that this is the case and that our strengths are appropriately recognised.

Yours sincerely

Professor Stewart Petersen
Director of Medical Education
