Our registers

We register doctors, physician associates (PAs) and anaesthesia associates (AAs) in the United Kingdom. You can search our registers to find a doctor, PA or AA and view their registration status and other useful information.

Searching for more than one doctor, PA or AA? You can enter multiple GMC reference numbers into the search box, just separate each number with a space or comma.

About our registers

We make sure that every doctor, PA and AA has the right knowledge, skills, qualifications and experience to work across the UK. We do this by maintaining official lists of these registered professionals.

When a doctor, PA or AA applies to register, we check they meet our requirements to work in the UK and deliver good, safe patient care.

To remain in practice doctors, PAs and AAs must continue to meet the professional standards we set. They must show that they are competent and are keeping their knowledge and skills up to date.

Find out what is on our registers and the different types of registration available to doctors, PAs and AAs in our guide to our registers.

If you're an employer, you can read our guide to employing a doctor and our guide to employing a PA or AA.
