Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 19 Mar 2026 to 19 Mar 2027

On 2 October 2023 Dr Copp was convicted of driving a motor vehicle dangerously. He did not inform the GMC of this conviction without delay. This behaviour does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case paragraph 81. and 99. of Good medical practice are particularly relevant: 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. 99. You must tell us without delay if, anywhere in the world: a. you have accepted a caution (or equivalent) from a prosecuting authority b. you have been charged with a criminal offence in person or by post c. you have been found guilty of a criminal offence. Whilst these failings are in themselves not so serious as to require any restriction on the doctor's registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
