### Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

#### From 02 Jul 2025 to 02 Jul 2026

In April 2022, Dr Wilson engaged in an isolated sexual act with a more junior colleague who had reported health conditions which may have indicated a degree of vulnerability at the time. This conduct does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. Paragraph 81 of Good medical practice provides that you must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on his registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at [www.gmc-uk.org/disclosure policy](http://www.gmc-uk.org/disclosure-policy).

### Hearings (Since 20 October 2005)

<u>Date</u>	<u>Hearing</u>	<u>Details</u>
