Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 22 May 2026 to 22 May 2027

In or around November 2025, you attempted to prescribe medication for yourself. At the time, you did not have a licence to practise medicine. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically patient safety, public confidence in the profession, and professional standards and conduct, and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraphs 4 and 81 of Good medical practice are particularly relevant: 4. You must follow the law, our guidance on professional standards, and other regulations relevant to your work. 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on your registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
