Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings](#).

From 05 Aug 2026 to 05 Aug 2027

On one or more occasions between July 2000 and January 2024, Dr Newton Butler dishonestly provided false information to the GMC about their date of birth. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and professional standards and conduct, and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraphs 81 and 89 of Good medical practice are particularly relevant: 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. 89. You must make sure any information you communicate as a medical professional is accurate, not false or misleading. This means: a. you must take reasonable steps to check the information is accurate b. you must not deliberately leave out relevant information ... Whilst this failing in itself is not so serious as to require any restriction on their registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
