Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 29 Jan 2025 to 29 Jan 2026

Between November 2023 and March 2024 Dr Ahmed posted and reposted material on X (formerly Twitter) that was objectively antisemitic and seriously offensive. This conduct does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraphs 52, 55, and 81 of Good medical practice are particularly relevant: 52 You must help to create a culture that is respectful, fair, supportive, and compassionate by role modelling behaviours consistent with these values. 55 You must show respect for, and sensitivity towards, others' life experience, cultures and beliefs. 81 You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst these failings are not so serious as to require restriction on Dr Ahmed's registration, it is necessary in response to issue this formal warning.
