Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings](#).

From 25 Jun 2026 to 25 Jun 2027

On 3 September 2025, Dr David accepted a police caution for possession of a Class A controlled drug. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and the professional standards and conduct expected of a doctor and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on Dr David's registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
