Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 05 Jun 2026 to 05 Jun 2027

On one or more occasion in 2022 Dr Saker failed to maintain professional boundaries with a female patient, by making inappropriate comments and sending an unwanted communication to her, unrelated to her clinical care. Dr Saker inappropriately used the patient's personal data in breach of GDPR. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically patient safety and public confidence in the profession and it must not be repeated. The required standards are set out in Good Medical Practice and associated guidance. In this case, paragraph 81 of Good Medical Practice is particularly relevant: 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on Dr Saker's registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.

Registration and licensing history (Since 20 October 2005)

From	To	Status
05 Nov 2013	Present	Registered with a licence to practise

Please note:

All doctors who were registered before 20 October 2005 have their registration 'From' date set to 20 October 2005.

This is the date when the register went online.

If you need to know whether the doctor was registered before 20 October 2005 please [contact us](#).
