Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 24 Apr 2026 to 24 Apr 2027

On 3 September 2025 Dr Samiappan was convicted of failing to co-operate with a preliminary breath test without reasonable excuse, and failing to provide two specimens of breath for analysis, contrary to relevant sections of the Road Traffic Act. This conduct does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on your registration, it is necessary in response to issue this formal warning. This warning will be published on the List of Registered Medical Practitioners (LRMP) in line with our publication and disclosure policy, which can be found at [www.gmc-uk.org/disclosure policy](http://www.gmc-uk.org/disclosure-policy).

Registration and licensing history (Since 20 October 2005)

From	To	Status
13 Dec 2017	Present	Registered with a licence to practise
