Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 14 Nov 2024 to 14 Nov 2025

On 25 May 2024, Dr Bryant accepted a community resolution disposal for possession of a Class A drug, namely ecstasy. Possession of a Class A drug does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: 81. You must make sure that your conduct justifies your patients' trust in you and the public's trust in the profession. Whilst this one-off failing in itself is not so serious as to require any restriction on Dr Bryant's registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
