 **Warnings on the registrant's registration**

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

**From 13 Nov 2025 to 13 Nov 2026**

On 29 December 2024 Dr Nawaz accepted a community resolution/words of advice outcome from the police following a altercation with an individual who sustained physical injuries. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and professional standards and conduct and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: 81. Dr Nawaz must make sure that his conduct justifies patients' trust in him and the public's trust in his profession. Whilst this failing in itself is not so serious as to require any restriction on his registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at [www.gmc-uk.org/disclosurepolicy](http://www.gmc-uk.org/disclosurepolicy).
