Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 30 Apr 2026 to 30 Apr 2027

On 10 July 2025, Dr Proctor was convicted of causing serious injury by driving without due care or attention, or without reasonable consideration for other persons using the road. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and professional standards and conduct, and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on your registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
