Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 08 Oct 2025 to 08 Oct 2026

On 1 October 2024 Dr Chaudhry accepted a police caution for the criminal offence of possession of an extreme pornographic image 'which portrayed, in an explicit and realistic way, a person performing an act of intercourse with a live animal'. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically patient safety/public confidence in the profession/professional standards and conduct and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: 81 You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on their registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
