Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 10 Apr 2026 to 10 Apr 2027

Between 1 December 2022 and 21 June 2023, on one or more occasion, Dr Adetoro inappropriately ordered zopiclone online for personal use, thereby attempting to import a controlled drug into the United Kingdom. This conduct does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraphs 4 and 81 of Good medical practice are particularly relevant guidance. 4 You must follow the law, our guidance on professional standards, and other regulations relevant to your work. 81 You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on Dr Adetoro's registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
