Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 15 May 2026 to 15 May 2027

On 12 November 2025 Dr Morris was convicted of driving a motor vehicle whilst having a proportion of alcohol in their system above the prescribed limit. This behaviour does not meet with the standards required of a doctor. It risks bringing the profession into disrepute and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph 81 of Good medical practice is particularly relevant: You must make sure that your conduct justifies patients' trust in you and the public's trust in the profession. Whilst this failing in itself is not so serious as to require any restriction on Dr Morris' registration, it is necessary in response to issue this formal warning. This warning will be published on the medical register in line with our publication and disclosure policy, which can be found at www.gmc-uk.org/disclosurepolicy.
