Warnings on the registrant's registration

Warnings are issued to indicate when a registrant's behaviour or performance is significantly below the standards expected, but when restricting a registrant's practice is not necessary. [See more on warnings.](#)

From 16 Oct 2025 to 16 Oct 2026

On 7 March 2025, at Leicester Magistrates' Court, Dr Khandokar was convicted of three counts of causing serious injury by careless driving relating to a single accident. This conduct does not meet with the standards required of a doctor. It risks undermining public protection, specifically public confidence in the profession and it must not be repeated. The required standards are set out in Good medical practice and associated guidance. In this case, paragraph [81] of Good medical practice is particularly relevant: 81. You must make sure that your conduct justifies patients' trust in you and the public's trust in your profession. Whilst this failing in itself is not so serious as to require any restriction on your registration, it is necessary in response to issue this formal warning.
