

AARA – EPA 4 sign-off form

EPA 4 is the provision of effective peripheral nerve blockade for surgical procedures.

This form should be used to sign off EPA 4. Once all EPAs are completed and evidenced, the AARA-CCA form should be completed and submitted to the GMC.

It is required that each EPA will include evidence from at least four different assessors.

Anaesthesia associate student _____

Student UID _____

University _____

Date (DD/MM/YYYY): _____

Level of entrustment

Based on the performance and supporting evidence, has the student reached the required level of entrustment for each of the activities?

	Yes	No
Provision of effective peripheral nerve blockade for surgical procedures at entrustment level 1a.		

1a: Direct supervision – supervisor present in theatre throughout and required to assist case with proactive involvement.

1b: Direct supervision – supervisor present in theatre throughout and available to assist reactively when needed.
