

Case Based Discussion (CBD)

Anaesthesia associate student: _____

Student UID: _____

Observed by: _____

Role (and professional registration number if applicable): _____

Date (DD/MM/YYYY): _____

Description of activity (case, complexity & context)	
--	--

Summary of reflective discussion between student AA and trainer To be completed by student AA and trainer	
---	--

Level of entrustment		
Based on this encounter, what is the level of supervision the assessor would trust the student AA to perform this activity safely, if they were to repeat the activity 'right here, right now'?		Please indicate level of entrustment:
1A	Direct supervisor involvement – present in theatre throughout and required to assist case with proactive involvement	
1B	Direct supervisor involvement – present in theatre throughout and available to assist reactively when needed	
2A	Supervisor in theatre suite, available to guide aspects of activity through monitoring at regular intervals	
N/A	Supervision level not applicable for this SLE	

NB: Student AAs must always practise under direct supervision, regardless of the entrustment level assessment.

<p>Suggestions for future development</p> <p>To be completed by student AA and trainer</p> <p><i>You may wish to consider: targeted clinical experience, key learning resources, progression to next level of entrustment</i></p>
