Recommendation 2

Document upload section

Find out more about what evidence is required for your specialty (opens in a new window) - you should have a copy of the most recent specialty specific guidance open whilst you complete your application.

You should upload all documents for this section below. If some of your evidence is relevant to more than one section of the application, you don't need to upload it twice. You should clearly cross reference evidence relevant to more than one section in the Description of Evidence section of the application.

We've produced specific guidance on the way evidence needs to be uploaded in your application - you can find this on our website. You must follow this guidance in order for your evidence to be accepted. **Guidance which does not meet our requirements may be removed from your application.**

Please note that all uploaded documents will be stored in a read only format. Once you have uploaded a document it won't be possible to update it unless you remove the whole document and re-upload it.

**Period of additional training (if any) and fields to be covered by it**

Dr must provide evidence of meeting the external CPD requirements of the Clinical Radiology

Recommendation 2

Description of evidence

You should provide a brief summary of all additional evidence you are providing for this section in 'Your additional comments for this section'.

Please explain how you now meet the required standard, and, in the case of procedural error, where that error occurred.

Complete all mandatory sections marked with an *

Period of additional training (if any) and fields to be covered by it

Dr must provide evidence of meeting the external CPD requirements of the Clinical Radiology curriculum.

The evaluators recommend an additional period of training of 6-12 months in order to achieve this; however, as the curriculum is competency based, this could be completed in a shorter amount of time.
Your additional comments for this section

Recommendation 1

Accepted evidence

You can view the evidence that has been accepted for this Accepted Area Of Competence below. If you would like to provide further evidence for this section contact your adviser.

Period of additional training (if any) and fields to be covered by it

Dr is required to provide primary evidence to demonstrate skills, knowledge and experience across the breadth of the Clinical Radiology curriculum.

The evaluators recommend an additional period of training of 6 months in order to achieve this: however, as the curriculum is competency based, this could be completed in a shorter amount of time.

Documentation, examination, assessment or other test of competency to satisfactorily demonstrate the standard required

Evidence should include:
- Six ACATs

My Documents Summary

Complete all mandatory sections marked with an *

The table below details our advice on each section of your application. Recommendations listed under 'Not Accepted Recommendations' need your review. Your specialist applications adviser has provided comments for these sections to confirm why we need further information or haven't accepted your evidence. Sections set to 'Accepted' do not require any action.

You should expand each section by clicking on the plus sign to review the documents we've assessed, provide further information and upload more evidence.

Thank you for submitting evidence and information to support your application. Your specialist applications adviser will review this and be in touch shortly to discuss the progress of your application. If you have confirmed that you will also be providing hard copy evidence, we will wait to receive this before your adviser contacts you.

If you have any queries whilst you await our guidance, please contact your adviser on equivalence@gmc-uk.org.

Click on OK to return to the home page.
