Promoting excellence:

standards for medical education and training
Promoting excellence - new standards

Promoting excellence:
standards for medical education and training

General Medical Council
Promoting excellence – new standards

- Launched July 2015
- Came into force 1 January 2016
- A single set of standards and requirements for all stages of medical education and training in one document *Promoting excellence: standards for medical education and training*
- Reduces the regulatory burden
Framework for new standards

1. Learning environment and culture
2. Educational governance and leadership
3. Supporting learners
4. Supporting educators
5. Developing and implementing curricula and assessments
Ten standards centred around patient safety

**THEME 1**
**Learning environment and culture**

S1.1 The learning environment is safe for patients and supportive for learners and educators. The culture is caring, compassionate and provides a good standard of care and experience for patients, carers and families.

S1.2 The learning environment and organisational culture value and support education and training so that learners are able to demonstrate what is expected in Good medical practice and to achieve the learning outcomes required by their curriculum.

**THEME 2**
**Educational governance and leadership**

S2.1 The educational governance system continuously improves the quality and outcomes of education and training by measuring performance against the standards, demonstrating accountability, and responding when standards are not being met.

S2.2 The educational and clinical governance systems are integrated, allowing organisations to address concerns about patient safety, the standard of care, and the standard of education and training.

S2.3 The educational governance system makes sure that education and training is fair and is based on principles of equality and diversity.

**THEME 3**
**Supporting learners**

S3.1 Learners receive educational and pastoral support to be able to demonstrate what is expected in Good medical practice and to achieve the learning outcomes required by their curriculum.

**THEME 4**
**Supporting educators**

S4.1 Educators are selected, inducted, trained, and appraised to reflect their education and training responsibilities.

S4.2 Educators receive the support, resources and time to meet their education and training responsibilities.

**THEME 5**
**Developing and implementing curricula and assessments**

S5.1 Medical school curricula and assessments are developed and implemented so that medical students are able to achieve the learning outcomes required for graduates.

S5.2 Postgraduate curricula and assessments are implemented so that doctors in training are able to demonstrate what is expected in Good medical practice and to achieve the learning outcomes required by their curriculum.
THEME 1
Learning environment and culture

S1.1 The learning environment is safe for patients and supportive for learners and educators. The culture is caring, compassionate and provides a good standard of care and experience for patients, carers and families.

S1.2 The learning environment and organisational culture value and support education and training so that learners are able to demonstrate what is expected in Good medical practice and to achieve the learning outcomes required by their curriculum.
THEME 2
Educational governance and leadership

S2.1 The educational governance system continuously improves the quality and outcomes of education and training by measuring performance against the standards, demonstrating accountability, and responding when standards are not being met.

S2.2 The educational and clinical governance systems are integrated, allowing organisations to address concerns about patient safety, the standard of care, and the standard of education and training.

S2.3 The educational governance system makes sure that education and training is fair and is based on principles of equality and diversity.
THEME 3  
Supporting learners

S3.1 Learners receive educational and pastoral support to be able to demonstrate what is expected in Good medical practice and to achieve the learning outcomes required by their curriculum.
THEME 4
Supporting educators

S4.1 Educators are selected, inducted, trained, and appraised to reflect their education and training responsibilities.

S4.2 Educators receive the support, resources and time to meet their education and training responsibilities.
THEME 5
Developing and implementing curricula and assessments

S5.1 Medical school curricula and assessments are developed and implemented so that medical students are able to achieve the learning outcomes required for graduates.

S5.2 Postgraduate curricula and assessments are implemented so that doctors in training are able to demonstrate what is expected in *Good medical practice* and to achieve the learning outcomes required by their curriculum.
