**Otolaryngology**

This guidance is to help doctors who are applying for entry onto the Specialist Register with a CESR following specialist training in Otolaryngology. You will also need to read the Otolaryngology Curriculum documentation.

### Can I get advice before I submit my application?

You can contact us and ask to speak to the Specialist applications team for advice before you apply. You are strongly advised to contact the Joint Committee for Surgical Training (JCST) for guidance before you submit an application or a reapplication.

### What is the indicative period of training for a Certificate of Completion of Training (CCT) in Otolaryngology?

The indicative period of training for a CCT in Otolaryngology is eight years and it is very unlikely that you would achieve the competencies required for a CCT in a shorter period of time.

The structure of the programme is an indicative two years in Core Medical Training, (CT1, CT2 and where appropriate CT3), followed by an indicative six years in the broad speciality of Otolaryngological Surgery as defined by the final and special interest stage of the syllabus.

For the complete structure refer to the Otolaryngology Curriculum documentation.

### Submitting your evidence

Do not submit original documents.

All your copies, other than qualifications you’re getting authenticated must be accompanied by a proforma signed by the person who is attesting to the validity and accuracy of your evidence (your verifier). It’s very important that you read an explanation of how to do this in our important notice about evidence.

You will also need to submit translations of any documents that are not in English. Please ensure the translations you submit meet our translation requirements.

### How much evidence to submit

This guidance on documents to supply is not exhaustive and you may have alternative evidence. We recognise that you may not have all the evidence listed here and you may wish to delay submitting an application until you are able to gather it.

Your evidence must cover the knowledge, skills and qualifications to demonstrate the required competencies in all of the generic and specialty specific areas of to the Otolaryngology Curriculum documentation. If evidence is missing from one area of the curriculum for example, then the application may fail.

If you have a piece of evidence that it relevant to more than one domain, do not include multiple copies in your bundle. Instead, include one copy and list it in your evidence list under each relevant area, stating that the document is located elsewhere. (For example you might state: “document included in teaching and training section”.)
It will help us to deal with your application more quickly if you make sure that you send us only evidence that is directly relevant.

Our guidance on compiling your evidence will help you to decide what is relevant and what is not. We recommend that you read it carefully.

Evidence that is more than five years old will be given less weight than more recent evidence, so you may not need to include it. As a general guide, we would usually expect to see around 800 - 1000 pages of evidence.

Types of evidence are divided into four different domains. We recommend that you apportion the evidence you provide with your application as shown in the pie chart.

- Domain 1: 75%
- Domain 2: 20%
- Domains 3 and 4: 5%

It is important to note that you will not be able to compensate for shortfalls in your evidence of training and experience in a particular area of the curriculum by providing extra evidence in other areas.

Unsuccessful applications or poor evidence

It is our experience that Otolaryngology applications are often submitted with inadequate or poor evidence in the following areas:

- Failure to provide evidence that shows that your current breadth and depth of knowledge, skills and experience is equivalent to the requirements set out in the CCT curriculum. It is not enough to show that you have been trained/gained competencies in the past - you also need to show that you have maintained them.
- Failure to provide evidence which shows how you perform - for example workplace based assessments (WPBAs). Guidance about this is given further on in this document.
- Insufficient evidence to show your current depth and breadth of knowledge if you haven't passed the intercollegiate examination. If you are using alternative evidence to demonstrate your knowledge, for example a research portfolio, you must make sure your evidence covers the whole of the specialty (not just one area) and it must be recent.
- Inadequate logbooks - for example, not enough detail in the logbooks or the logbooks are poorly presented and badly organised. Your logbooks must include the age and gender of the patient, the procedure name and date, whether the procedure was elective or emergency, your involvement, and the outcome/any complication. You should provide consolidation sheets/summary totals for the logbooks that you submit.

We strongly recommend that you closely match your experiences against the current curriculum and provide evidence of equivalence across all areas. We also strongly recommend that all your referees should be familiar with the current curriculum and able to provide detailed support for your competence across all or most areas.
Anonymising your evidence

It is important that you anonymise your evidence before you submit it to us. You must remove:

- All patient identifying details
- Details of patients’ relatives
- Details of colleagues that you have assessed, written a reference for, or who have been involved in a complaint you have submitted.

This includes:

- Names (first and last)
- Addresses
- Contact details such as phone numbers or email addresses
- NHS numbers
- Other individual patient numbers
- GMC numbers

The following details don’t need to be anonymised:

- Gender
- Date of birth

It is your responsibility to make sure that your evidence has been anonymised. Evidence which has not been anonymised will be returned to you. More information can be found on our website.
## Domain 1 - Knowledge, skills and performance

### Qualifications

<table>
<thead>
<tr>
<th>Qualification</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Primary medical qualification (PMQ)</strong></td>
<td>If you hold full registration with us, you do not need to submit your PMQ as we saw it when we assessed your application for registration. If you do not hold registration, you will need to have your primary medical qualification independently verified by ECFMG before we can grant you full registration with a licence to practise. You can find out more about primary source verification on our website. You only need to get your primary medical qualification verified by ECFMG. The rest of your evidence should be verified in line with our guidance.</td>
</tr>
<tr>
<td><strong>Specialist medical qualification(s)</strong></td>
<td>Please provide an <strong>authenticated copy</strong> of any specialist medical qualifications you hold. For College examinations the College may confirm details of any examinations you have undertaken. As well as showing that you have either a specialist medical qualification or training in order to be able to apply you must demonstrate knowledge to the standard of the curriculum. To demonstrate evidence of depth of knowledge you should provide a portfolio to demonstrate appropriate levels of knowledge in Otolaryngology. You should bear in mind that you will be measured against the standards of a CCT (the formal test of knowledge required for a CCT is the Intercollegiate Fellowship Exam [ICB Examination]). If you cannot demonstrate success in this exam then other supporting evidence of your knowledge must be very strong indeed. Other elements of the portfolio could include evidence of research, peer reviewed publications and presentations at national and international meetings, evidence of specialist qualifications or examination(s) passed, for example College/Faculty exams. The following are examples of part of a portfolio to demonstrate knowledge - although it is unlikely that any one thing on their own would do this:</td>
</tr>
</tbody>
</table>

- **pre ICB examination versions of the Fellowship of the Royal College of Surgeons FRCS** - These will show a basic level of knowledge but not specialty specific or current (this means it is likely that this will have been taken some time ago)
- **Other examinations including overseas qualifications.** You will need to provide a certificate of success with details of what the examination covers and to what level. The official curriculum/syllabus could demonstrate this. A certificate of success alone will not show that you currently have the appropriate level of
knowledge. Decisions are made on a case by case basis. It is unlikely, however, that any qualification other than the ICB exam will show direct equivalence as no other qualification is templated directly to the curriculum. The European examinations (e.g. FEBU and FEBVS) are not fully equivalent.

- **Research** - recent work published in peer-reviewed journals or presented at national or international meetings will carry more weight. A broad portfolio of research in all areas of the curriculum may demonstrate the required level of knowledge.

- **Post-graduate degree gained through research** - you should include an authenticated copy of your certificate. This is unlikely on its own to show sufficient depth and breadth of knowledge as research will be focussed on one area.

- **Peer-reviewed publications** - you should include a copy of the complete text of each publication you wish to use to demonstrate knowledge equivalent to the ICB exam, detailing your involvement. The best evidence will be recent first-name publications in high-impact factor peer-review journals of work relating to knowledge normally achieved in the last year(s) of the CCT curriculum.

- **Presentations at national and international meetings and conferences** - you should include a programme detailing the date and title of presentation, when and where presented, any feedback and your role in the work. Include the slides used (with dates) for each presentation.

- **Acting as Examiner/ Assessor or designing and developing examinations** - this may form part of your evidence but only if it is clear what level of knowledge it displays and that it covers all areas of the curriculum. The evidence will need to be comprehensive, for example acting as an examiner for the ICB.

There are no qualifications from outside Europe that enable automatic entry to the Specialist Register in any specialty. An evaluation is made based on an applicant’s whole career and therefore two applicants with the same qualifications but different training and/or experience may not receive the same decision.

You must list any failed attempts at examinations relevant to your specialty. Please list unsuccessful attempts at examinations (where you have not subsequently been successful) in the application form.
| Curriculum or syllabus (if undertaken outside the UK) | This should include the requirements of the qualification and **must** relate to the specialty in which you are applying. The curriculum or syllabus (including assessment methods) **must** be the one that was in place when you undertook your training.
If a formal curriculum or syllabus (including assessment methods) is not available please provide a letter from the awarding body outlining the content of the training programme or examination.
For qualifications, we will look to evaluate:
- where the curriculum covers areas of the CCT curriculum
- the complexity of the work undertaken
- how examinations are evaluated or quality assured (external assessment). |
| Specialist registration outside the UK | Please provide an **authenticated copy** of details of the registration requirements of that authority.
This will demonstrate what is expected of a registrant by that authority and how your application for registration was evaluated. |
| Honours and prizes | Please provide **copies** of certificates or letters showing what the prize or honour was for, including the selection and eligibility criteria and pool of eligible individuals.
Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge. |
| Other relevant qualifications and certificates | Please provide **copies** of certificates.
For example: degrees or diplomas in relevant areas such as management, business, IT, communication, education or law. |
### Assessments and appraisals

You should submit evidence of recent appraisals – you need to show that your practice is examined and that you use this as a tool for continuous development. The appraisals should also include a personal development plan (PDP). PDPs normally form part of your annual appraisal system and you should submit them with appraisal documentation. Appraisals completed retrospectively hold no value.

The workplace-based assessment (WPBA) methods used in the curriculum are:

- **Mini-PAT** (Peer Assessment Tool)
- **Mini-CEX** (mini Clinical Evaluation Exercise)
- **CBD** (Case Based Discussion)
- **Surgical DOPS** (Direct Observation of Procedural Skills in Surgery)
- **PBA** (Procedure-based Assessment).

WPBAs should be sufficiently frequent to be able to demonstrate progress and should be undertaken with different assessors in different settings on a variety of patients. It is important for those not in training to provide details of assessment of the same competency from three assessors in order to triangulate the information. WPBAs completed retrospectively will hold no weight.

You should provide WBAs, especially PBAs and CBDs, in the specified format below, for the main topics and procedures across the full breadth of the curriculum (including all the Technical Skills and Procedures (TSPs)). The curriculum contains key topics, index procedures and other operations to guide you in what to cover. **The CCT Guidelines for otolaryngology** provide information.

It is very important that your PBAs are as meaningful as possible and therefore they should show evidence of feedback and guidance. They should include comments from your assessors and, where appropriate, demonstrate reflection by you. Block entries of ‘satisfactory’ are not acceptable. When you submit your application you should set the PBAs out as a single batch with a complete summary list. CBDs should be presented as a single batch, also with a complete summary list.

You should order your WBAs as follows: grouped together by type of WBA (e.g. PBA, CBD) and within that by procedure (e.g. all the PBAs for the same procedure should be together). You should also provide an index of the WBAs.
| **RIITAs, ARCPs and training assessments** | The above tools are available for those not in training to use.

Alternatively, if the evidence of your recent competence has been gained within a system where the assessments above do not exist, you will still need to provide evidence of ongoing evaluation of your performance. This may take the format of formal appraisals by the department head or line manager (clinical director, medical director, professor). Where no formal appraisal or assessment forms are available you must provide information on the method of career review or progression. Alternative evidence may include letters (written at the time) commenting on your performance. In addition, where no formal appraisal or assessment forms are available, you must provide detailed information on the method of assessment used.

Formal records of assessment have been in place in the UK since 1996 (for posts of Registrar, Specialist Registrar, and Specialty Registrar). These assessments used to be known as Records of in training assessment (RIITAs) and are now known as Annual Review of Competence Progression (ARCP). You can read more about ARCPs here: http://www.iscp.ac.uk/surgical/assessment_arcp.aspx

If you have undertaken training in the UK in these grades you should provide a copy of your formal records. In addition if you held any of these approved training posts (except locum posts), please provide evidence of your training number.

If you have undertaken training outside the UK you **must** provide evidence of formal periodic assessment during your training. This evidence **must** have been completed at the time the training was undertaken (if it is completed retrospectively less weight will be given to the information provided). If you do not supply formal assessment documents, you **must** provide the curriculum to demonstrate how you were assessed. A detailed letter of verification from an educational supervisor would satisfy this requirement.

If that training was recognised by relevant authorities outside the UK please provide evidence and recognition standards.

If areas for development were highlighted please provide evidence to demonstrate that you have subsequently addressed them. There are many different forms of assessment which form part of the CCT curriculum. Many of these tools are available for those not in training to use.

<p>| <strong>360° and multi-source feedback</strong> | You may wish to supply evidence of feedback from colleagues of all levels (peers, nursing, auxiliary staff, patients, management) completed at the time and may be in the format of letters, references for posts applied for etc. |</p>
<table>
<thead>
<tr>
<th>Awards and discretionary points letters</th>
<th>You <strong>must</strong> provide copies of certificates and letters.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personal development plans (PDP)</td>
<td>For details of what to include please see <a href="https://www.gmc-uk.org">NHS appraisal information</a>. You <strong>must</strong> also provide evidence of review of your PDP at appraisal. PDPs normally form part of your annual appraisal system and you should submit them with appraisal documentation.</td>
</tr>
</tbody>
</table>
Logbooks, records of daily clinical practice and portfolios

The evidence you supply here must demonstrate that you have achieved all the requirements and competencies as set down in the CCT curriculum for your specialty. The documentation needs to:

- Provide evidence of your surgical experience.
- Show the progression in your surgical experience from assisting, to undertaking surgery assisted by a trainer, to performing surgery independently.
- Show how many procedures you have performed, as well as the variety of your surgical experience.

You should refer to the CCT Guidelines for Otolaryngology for the indicative minimum operation numbers.

If you have worked in a specialised area for some time, you should submit evidence that at one stage in your career you achieved the requirements and competencies of the curriculum for your specialty and that you have maintained these skills. You will also need to provide evidence that your current specialised practice allows you to meet all of the requirements of Good medical practice.
<table>
<thead>
<tr>
<th>Logbooks</th>
<th>You should present your logbook in the <a href="www.gmc-uk.org">elogbook</a> format.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Your logbook should provide:</td>
<td>a complete picture of your surgical experience over a minimum of the last 6 years in the elogbook format.</td>
</tr>
<tr>
<td></td>
<td>the age and gender of the patient, the procedure name and date, whether the procedure was elective or emergency, your involvement (e.g. assisting, you as the surgeon, assisted by a trainer), and the outcome/any complication.</td>
</tr>
<tr>
<td>If you did not complete a logbook at the time you undertook the procedures, you should create a logbook from the information you have. It should contain the following information:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>only procedures that you were personally involved in</td>
</tr>
<tr>
<td></td>
<td>age and gender</td>
</tr>
<tr>
<td></td>
<td>date of the procedure</td>
</tr>
<tr>
<td></td>
<td>full name of the procedure</td>
</tr>
<tr>
<td></td>
<td>your role in the procedure (assisted, performed personally, performed under direct supervision of someone more senior, supervised a junior)</td>
</tr>
<tr>
<td></td>
<td>any critical incidents</td>
</tr>
<tr>
<td></td>
<td>name of the hospital or clinic where procedure was performed</td>
</tr>
<tr>
<td></td>
<td>outcomes data.</td>
</tr>
</tbody>
</table>

Photocopies of operating lists and theatre record books are not satisfactory evidence of procedures.

**All patient names (first and last), contact details (including full address) and any patient ID numbers (such as NHS numbers or hospital numbers) must be removed from your evidence before you submit it to us.**
| Consolidation, cumulative data sheets, summary lists and annual caseload statistics | You also need to provide consolidation sheets. If you do not provide these in the format described then it will be very difficult to assess your skills and experience. This could lead to your application being unsuccessful. The logbook and consolidation sheets need to be set out in the e-logbook format and **must include a single consolidation report, listed by operation group of all of the procedures you have been involved with during the last six years.**

In addition,

- a consolidation report for the same period showing the total numbers for the SAC indicative procedures,
- cumulative totals for the operation groups for your specialty for each six- or 12-month period. This will help us to see your progression over the six years into more complex cases and more independent operating; and
- your experience over the rest of your career (split into UK/overseas if necessary).

All consolidation sheets need to be categorized by your involvement, e.g. assisting, you as the surgeon, assisted by a trainer, etc.

All evidence in this area must be **anonymised** for individual patient data. |
| Medical reports | These are not required for surgical applications. |
| Case histories | These are not required for surgical applications. |
| Referral letters discussing patient handling | You need only to provide 2 or 3 examples of your referral letters. This may include examples of letters:  
- requesting a second opinion  
- advising clinical colleagues or answering particular questions regarding patient management  
- from clinical colleagues regarding your involvement in patient management.  
You can use these to demonstrate your:  
- relationship with colleagues in other disciplines  
- handling of patient paperwork  
- recognition of the limits of your professional competence  
- respect and protection of confidential information.  
All evidence in this area must be anonymised for individual patient data. |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Patient lists</td>
<td>These are not required for surgical applications.</td>
</tr>
</tbody>
</table>
| Departmental (or trust) workload statistics and annual caseload statistics | You can use these to demonstrate:  
- the size of the hospital in which you work  
- the volume of work undertaken within your trust and the percentage that you undertake  
- the range of work that you undertake and that is undertaken within your trust  
- triangulation with logbook information. |
| Rotas, timetables and job plans | Where you have undertaken a number of roles provide details for each post or role. You can use these documents to demonstrate:  
- details of clinical and non-clinical duties you undertake  
- your on-call commitment  
- your participation in meetings and teaching  
- triangulation with logbook information. |
<table>
<thead>
<tr>
<th>Courses relevant to curriculum</th>
<th>The following courses are all required by the 2013 curriculum:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• a ‘Training the Trainers’ course, or equivalent.</td>
</tr>
</tbody>
</table>

It is expected that trainees will be able to show evidence of competence in the management of trauma (ATLS / APLS certificate or equivalent). Therefore CESR applications should also provide evidence of ATLS or APLS course completion (or equivalent).
**Details of posts and duties (including both training and experience posts)**

| Employment letters and contracts of employment | The information in these letters and contracts **must** match your CV. They will confirm the following:  
- dates you were in post  
- post title, grade, training  
- type of employment: permanent, fixed term, or part time (including percentage of whole time equivalent). |
| --- | --- |
| Job descriptions | These **must** match the information in your CV. They will confirm the following:  
- your position within the structure of your department  
- your post title  
- your clinical and non clinical commitment  
- your involvement in teaching or training. |
| Job plans | Where you have undertaken a number of roles, provide details for each post or role. You can use these documents to demonstrate:  
- the main duties and responsibilities of the post  
- your out of hours responsibilities, including rota commitments  
- that you have covered for colleagues' periods of leave  
- any professional supervision and management of junior medical staff that you have undertaken  
- your responsibilities for carrying out teaching, examination and accreditation duties  
- your contribution to postgraduate and continuing medical education activity, locally and nationally  
- any responsibilities you had that relate to a special interest  
- requirements to participate in medical audit and in continuing medical education  
- your involvement in research  
- your managerial, including budgetary, responsibilities where appropriate  
- your participation in administration and management duties. |
| Research papers, grants, patent designs | You must provide evidence of the demonstration of critical appraisal and research skills (as demonstrated by publication list with evidence of regular annual publications, presentations, posters and/or higher degree). At least a basic of one peer-reviewed paper, as first author, published a year over the last 4 years or an equivalent project e.g. a recent MD thesis. You may wish to refer to the [CCT Guidelines for Otolaryngology](http://www.gmc-uk.org). It is important to submit evidence where your contribution has been significant; the evaluators will look for first author publications/presentations. The evidence you submit should be recent (within the last five years) and you should ensure that all evidence is dated. If the research is published - please submit the first page of the published paper. If the research is not published - please provide a summary or abstract of the research. We may undertake web searches to check the information you provide. You can use these documents to demonstrate:  
- the types and complexity of cases you are involved in  
- triangulation with logbook information  
- working with colleagues (where research is joint or multi-disciplinary)  
- Continuing Professional Development (CPD). Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge. |

---

**This is the specialty specific guidance for Otolaryngology**  
Please make sure you are reading the latest version. You can find all the guidance you need at [www.gmc-uk.org](http://www.gmc-uk.org).
| Publications within specialty field | Include a copy of the front page of each publication. More weight is given where:  
• the applicant is first author  
• the publication has a high impact factor.  
You **must** not change the listing of the authors (the order in which the authors are listed) in papers where there is more than one author.  
The JCST may undertake web searches to check the information you provide.  
You can use these documents to demonstrate:  
• the types and complexity of cases you are involved in  
• triangulation with logbook information  
• working with colleagues (where publications are joint or multi disciplinary)  
• Continuing Professional Development (CPD).  
Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge: |
| Presentations, poster presentations | You may wish to supply invitations to present at national or international meetings to demonstrate your recognition within your specialty. You may also supply feedback from presentations or meeting agendas or programmes that show your participation.  
You can use these documents to demonstrate:  
• the types and complexity of cases you are involved in  
• triangulation with logbook information  
• Continuing Professional Development (CPD)  
• teaching and training.  
Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge. |
### CPD and CME

<table>
<thead>
<tr>
<th>Topic</th>
<th>Guidance</th>
</tr>
</thead>
</table>
| CPD record certificates, certificates of attendance, workshops and at local, national and international meetings or conferences | You should provide a variety of these to cover all aspects of your work and to demonstrate the breadth of your practice. Where you have specialised the provision of CPD records covering the other aspects of the relevant curriculum is important to demonstrate the maintenance of your skills. Please provide details of the events you have attended describing the content. Support this with documentary evidence of your attendance (CPD certificates etc.). The following courses are mandatory:  
  - ‘Training the Trainers’ course, or equivalent.  
You must provide evidence of attending the craft courses and attending and contributing to national and international conferences during training. As guidance, CCT Training programmes require attendance at over 75% of the regional training days. |
| CPD registration points from UK Medical Royal College (or equivalent body overseas) | Please provide these if available. (The surgical colleges do not register CPD points at present.)                               |
| Membership of professional bodies and organisations                  | List the following for your current membership of professional bodies and organisations. Provide documentary evidence showing membership information:  
  - organisation name  
  - date of joining  
  - status of membership (member, associate etc)  
  - how membership is achieved (evaluation, examination, is membership restricted or open to all?). Where membership has been attained through an evaluation or examination and you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge. |

---

**This is the specialty specific guidance for Otolaryngology**

Please make sure you are reading the latest version. You can find all the guidance you need at [www.gmc-uk.org](http://www.gmc-uk.org).
**Teaching and training**
You need to provide evidence of an understanding of, and participation in, medical education, training, assessing and appraising. You should refer to the curriculum and Guidance for CCT. The 2013 Otolaryngology curriculum requires:

- a ‘Training the Trainers’ course, or equivalent

Trainees should be able to demonstrate experience of teaching and education e.g. by teaching on a course, organising a course or conference, or having a diploma certificate or degree in education. The minimum standard is a locally run “Training the Trainers” course.

| Teaching timetables | Where you have undertaken a number of roles provide details for each post or role, indicate the level of the teaching. Where teaching is not formal (timetabled) indicate how you participate in teaching.
Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge. |
|---------------------|---------------------------------------------------------------------------------------------------------------|
| Lectures            | Please include evidence showing the audience and topics covered, such as posters advertising event, educational timetable from trust education centre, letter from education centre indicating your involvement in specialty trainee formal education programme.
You can use these documents to demonstrate:
- the types and complexity of cases you are involved in
- triangulation with logbook information
- Continuing Professional Development (CPD)
- teaching and training
- communication skills. |
| Feedback or evaluation forms from those taught | Please provide copies of feedback from teaching events you have participated in. You can use these documents to demonstrate:  
- the types and complexity of cases you are involved in  
- triangulation with logbook information  
- Continuing Professional Development (CPD)  
- teaching and training  
- leadership  
- relationships with colleagues  
- communication skills.  
All evidence in this area **must be anonymised** for individual trainee data. |
| Letters from colleagues | You can use copies of letters from colleagues to demonstrate similar information to feedback forms (see above). All evidence in this area **must be anonymised** for individual trainee data. |
| Attendance at teaching or appraisal courses | Please provide documentary evidence that you attended the courses and information on the content of the course including whether they were generic or aimed at medical professionals. The 2013 Otolaryngology curriculum requires:  
- a ‘Training the Trainers’ course, or equivalent. |
<table>
<thead>
<tr>
<th>Participation in assessment or appraisal and appointments processes</th>
<th>Examples of strong evidence in this area include:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• acting as an examiner or designing examinations</td>
<td></td>
</tr>
<tr>
<td>• undertaking appraisals</td>
<td></td>
</tr>
<tr>
<td>• involvement in appointment processes</td>
<td></td>
</tr>
<tr>
<td>• workplace-based assessments (WPBAs) of others</td>
<td></td>
</tr>
<tr>
<td>• attendance at courses for assessing and appraising.</td>
<td></td>
</tr>
</tbody>
</table>

You can use these documents to demonstrate:

• contribution to postgraduate and continuing medical education activity, locally and nationally
• any responsibilities which relate to a special interest
• participation in administration, management duties
• participation in teaching and training
• communication, partnership and teamwork
• relationships with colleagues (including giving feedback)
• leadership.
Domain 2 – Safety and quality

Participation in audit, service improvement

The Otolaryngology curriculum requires participation in Quality Improvement – which it defined as evidence of an understanding of, and participation in, audit or service improvement. The Otolaryngology curriculum requires evidence of the completion of one audit per year during training where the applicant is the principal person responsible for the audit. Each audit must have been presented locally as part of the clinical governance mechanisms of the NHS. During the course of the training programme, audit must include a review of personal outcomes.

### Audits undertaken by applicant

<table>
<thead>
<tr>
<th>Audits undertaken by applicant</th>
<th>NICE defines clinical audit as:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>A quality improvement process that seeks to improve patient care and outcomes through systematic review of care against explicit criteria and the implementation of change. Aspects of the structure, processes, and outcomes of care are selected and systematically evaluated against explicit criteria. Where indicated, changes are implemented at an individual, team, or service level and further monitoring is used to confirm improvement in healthcare delivery.</td>
</tr>
</tbody>
</table>

You should provide evidence of the five stages of the audit process:

1. Definition of criteria and standards
2. Data collection
3. Assessment of performance against criteria and standards
4. Identification of changes (alterations to practice)
5. Re-evaluation

Evidence you could supply includes:

- audit reports (collections of data alone are not considered as a full clinical audit)
- publications
- submissions to ethics committee (not satisfactory alone)
- presentations of audit work (see above for details required for presentations)
- letter from audit or clinical governance lead confirming participation in audit or governance activities
- guidelines produced to reflect lessons learned within audit
- notes from self-reflective diaries.

You can use these documents to demonstrate:
Reflective diaries

Reflective practice is a very important part of self-directed learning and is a vital component of CPD. It is an educational exercise that enables surgeons to explore their actions in order to refine and improve their surgical practice.

Oral reflection is an activity that surgeons find useful and developmental. Writing reflectively adds more to the oral process by allowing a deeper understanding. Written reflection offers different benefits to oral reflection which include: a record for later review, a reference point to demonstrate development and a starting point for shared discussion.

The can use this evidence to show:

- your recognition of the limits of your professional competence
- handling of critical incidents or complaints
- how you have changed your practice in the light of experiences (part of audit).

As this evidence is self-produced, for its content to be given weight it must be supported or triangulated by other evidence.
| Service Improvement and clinical governance meetings | You need to demonstrate your exposure to management issues, contract issues, rotas and budgeting for a department. Your evidence might include:  
- participation in service improvement meetings (meeting invitations, agendas, minutes).  
- participation in multi-disciplinary team meetings (MDTs) (meeting invitations, agendas, minutes).  
- participation in clinical governance meetings (meeting invitations, agendas, minutes).  
- attendance at Clinical Governance courses; you should demonstrate a knowledge of governance in the NHS budgetary activities  
- organisation of rotas and work schedules  
- acting as a trainee representative  
- membership of working party.  
You can use these documents to demonstrate:  
- communication, partnership and teamwork  
- relationships with colleagues  
- leadership  
- multi disciplinary working  
- participation in audit or clinical governance.  
All evidence in this area must be anonymised for individual patient data. |
<table>
<thead>
<tr>
<th>Health and safety</th>
<th>You need to provide evidence to show that you are aware of and follow Health and Safety requirements. This can be demonstrated by:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• attendance at appropriate course (e.g. infection control, safeguarding vulnerable adults, safeguarding vulnerable children)</td>
</tr>
<tr>
<td></td>
<td>• involvement in infection control (e.g. membership of committees)</td>
</tr>
<tr>
<td></td>
<td>• logbook information on infections</td>
</tr>
<tr>
<td></td>
<td>• audit on infections and subsequent changes in activity</td>
</tr>
<tr>
<td></td>
<td>• creating guidance to protect patient safety and putting that guidance in place</td>
</tr>
<tr>
<td></td>
<td>• participation in Morbidity and Mortality meetings (invitations to meetings, agendas, minutes, presentations)</td>
</tr>
</tbody>
</table>

Please provide evidence of your own health:

- declaration of health on your application form
- immunisation records
- health records.
Domain 3 - Communication, partnership and teamwork

Communication
You need to demonstrate that you can communicate effectively with colleagues. You should be able to provide evidence of your interpersonal skills which enable you to develop and maintain productive working relationships within the healthcare team and with wider multidisciplinary agencies. You also need to demonstrate that you can communicate effectively with patients and build effective relationships with patients and families.

<table>
<thead>
<tr>
<th>Colleagues</th>
<th>Please provide evidence to support your communication with colleagues, both within your immediate team and the wider team (including non-clinical). This can be demonstrated by:</th>
</tr>
</thead>
</table>
|            | • patient handovers/referrals to colleagues  
            | • 360° appraisals (Mini PATs) and Multisource Feedback  
            | • testimonials or recommendations from colleagues  
            | • training on “Effective Communication”  
            | • thank you cards/ letters from colleagues  
            | • attendance and participation in MDT meetings  
            | • copies of appraisals or references written for colleagues (these must be anonymised with relation to colleague data). |

You can use these documents to demonstrate:
• communication, partnership and teamwork  
• relationships with colleagues  
• leadership  
• multidisciplinary working  
• participation in directorate and management meetings  
• honesty and objectivity.
<table>
<thead>
<tr>
<th>Patients</th>
</tr>
</thead>
<tbody>
<tr>
<td>This area could be demonstrated in a number of ways including:</td>
</tr>
<tr>
<td>• 360° Feedback/ Multisource Feedback (MSF)</td>
</tr>
<tr>
<td>• comments in appraisals/performance reviews</td>
</tr>
<tr>
<td>• patient satisfaction surveys</td>
</tr>
<tr>
<td>• thank you letters/cards from patients and families</td>
</tr>
<tr>
<td>• letters to patients</td>
</tr>
<tr>
<td>• training on “Effective Communication”, “Informed Consent”, “Mental Capacity”, etc.</td>
</tr>
<tr>
<td>• testimonials from colleagues.</td>
</tr>
<tr>
<td>You can use these documents to demonstrate:</td>
</tr>
<tr>
<td>• communication</td>
</tr>
<tr>
<td>• relationships with patients</td>
</tr>
<tr>
<td>• honesty and integrity</td>
</tr>
<tr>
<td>• protecting patient confidentiality.</td>
</tr>
<tr>
<td>All evidence in this area must be anonymised for individual patient data.</td>
</tr>
</tbody>
</table>
Partnership and teamwork
As an applicant you will need to demonstrate that you can build partnerships and work well in a team with colleagues in both clinical and management situations.

<table>
<thead>
<tr>
<th>Working in multidisciplinary teams</th>
<th>This area could be demonstrated in a number of ways including:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• patient handovers/referrals to colleagues</td>
</tr>
<tr>
<td></td>
<td>• 360° appraisals (Mini PATs) and Multisource Feedback</td>
</tr>
<tr>
<td></td>
<td>• testimonials or recommendations from colleagues</td>
</tr>
<tr>
<td></td>
<td>• participation in directorate and management meetings</td>
</tr>
<tr>
<td></td>
<td>• job plans which indicate this as a duty.</td>
</tr>
</tbody>
</table>

You can use these documents to demonstrate:
• communication, partnership and teamwork
• relationships with colleagues
• leadership
• multidisciplinary working.

All evidence in this area must be anonymised for individual patient data.

<table>
<thead>
<tr>
<th>Management and leadership experience</th>
<th>You will need to show that you work constructively with colleagues by supporting them, delegating effectively, acting as a positive role model and providing effective leadership.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>This area could be demonstrated in a number of ways including:</td>
</tr>
<tr>
<td></td>
<td>• job plans which indicate leadership and/or management duties</td>
</tr>
<tr>
<td></td>
<td>• leadership and management training courses</td>
</tr>
<tr>
<td></td>
<td>• appraisals which include this information.</td>
</tr>
</tbody>
</table>

You can use these documents to demonstrate:
• communication, partnership and teamwork
• relationships with colleagues
• leadership
• management skills.

All evidence in this area must be anonymised for individual patient data.
<table>
<thead>
<tr>
<th>Chairing meetings and leading projects</th>
</tr>
</thead>
<tbody>
<tr>
<td>This area could be demonstrated in a number of ways including:</td>
</tr>
<tr>
<td>• invitations to attend meetings</td>
</tr>
<tr>
<td>• minutes of meetings demonstrating your attendance and participation in the meeting</td>
</tr>
<tr>
<td>• job plans which indicate this as a duty</td>
</tr>
<tr>
<td>• appraisals which include this information</td>
</tr>
<tr>
<td>• project reports</td>
</tr>
<tr>
<td>• letters from colleagues</td>
</tr>
<tr>
<td>• publications or presentations.</td>
</tr>
</tbody>
</table>

You can use these documents to demonstrate:

• communication, partnership and teamwork |
• relationships with colleagues |
• leadership |
• multi disciplinary working |
• participation in directorate and management meetings |
• Continuing Professional Development (CPD). |

Where you have not provided evidence of success in an examination that is a requirement of the CCT curriculum, evidence in this area may contribute to your demonstration of equivalent knowledge.

All evidence in this area **must be anonymised** for individual patient data.
### Domain 4 – Maintaining trust

#### Acting with honesty and integrity

<table>
<thead>
<tr>
<th>Honesty and integrity</th>
<th>You can demonstrate this with:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• the declarations on your application form</td>
</tr>
<tr>
<td></td>
<td>• statements from your referees</td>
</tr>
<tr>
<td></td>
<td>• appraisal forms</td>
</tr>
<tr>
<td></td>
<td>• having no restrictions on your registration (UK based doctors)</td>
</tr>
<tr>
<td></td>
<td>• Certificate of Good Standing (overseas based doctors)</td>
</tr>
<tr>
<td></td>
<td>• any details of gaining ethics committee approval.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Equality and human rights (including disability, human rights, race, religion and ethnicity awareness and equal opportunities)</th>
<th>You can demonstrate this with:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• appraisals</td>
</tr>
<tr>
<td></td>
<td>• 360° appraisal and multisource feedback</td>
</tr>
<tr>
<td></td>
<td>• equality and diversity training</td>
</tr>
<tr>
<td></td>
<td>• undertaking appraisal and assessment of others.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Data protection</th>
<th>You can demonstrate this with:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• attendance at relevant courses e.g. information governance and confidentiality</td>
</tr>
<tr>
<td></td>
<td>• undertaking appraisal and assessment of others</td>
</tr>
<tr>
<td></td>
<td>• examples of complaint management.</td>
</tr>
</tbody>
</table>

You must not breach patient or colleague confidentiality in your evidence; please refer to the [GMC Guidance](http://www.gmc-uk.org) on anonymising evidence before you submit your application.
### Relationships with patients

| Testimonials and letters from colleagues | You may include “To whom it may concern letters”.  
|                                         | All evidence in this area **must be anonymised** for individual patient data. |
| Thank you letters, cards from colleagues and patients | Please ensure that these are **anonymised** (for individual patient data). |
| Complaints and responses to complaints | This is to demonstrate how you handle complaints. Having a complaint made against you will not adversely influence your application.  
|                                         | You may include complaints received against the department within which you worked or one against a colleague where you have been involved in the resolution.  
|                                         | You may provide a reflective diary of how you would handle a hypothetical complaint.  
|                                         | All evidence in this area **must be anonymised** for individual patient data. |
